THE VISION, IDEAS AND THOUGHTS OF FORMER PRIME MINISTER, LATE SHRI ATAL BIHARI VAJPAYEE

AN ETERNAL SOURCE OF INSPIRATION

WWW.JOBRIYA.COM

A man of masses, veteran leader and former Prime Minister Late Shri Atal Bihari Vajpayee passed away in New Delhi on 16th August, 2018. The 93-year-old veteran leader breathed his last at AIIMS where he was admitted for treatment.

Late Shri Atal Bihari Vajpayee's legacy as Prime Minister is a rich one that will be remembered and cherished forever. He was an eminent national leader, an erudite politician, a selfless social worker, forceful orator, poet and litterateur, journalist and indeed a multi-faceted personality.

The following are some excerpts from his speech

delivered at a time when the world was entering a new century. This is from

(Volume-2)" brought out by Publications Division. The vision and thoughts in this speech continue to be a source of inspiration.

"A new chapter in the history of mankind begins, as the sun sets for the last time in the twentieth century. This is an occasion for cheer and joy. The battle against terrorism can be won, by all nations acting together, by outdoing the terrorist in patience, in technology, in strength, and in intelligence. India shall join hands across nations to rid the world of this crime against humanity. Let this be our first resolution for the New Century. Along with terrorism, the twin

curse of poverty and illiteracy has to be wiped out. We have to ensure that every Indian has a shelter and the poorest of the poor, access to a life of dignity. We have to break down barriers of caste, language and religion. We have to erase artificial boundaries that separate Indians from Indians. We have to remove all forms of discrimination, especially discrimination against women. The key to this new society is fast economic development and rapid social change. We have to ensure growth with equity so that every Indian benefits from India's prosperity. India shall be a

CAREER IN DISABILITY REHABILITATION & SPECIAL EDUCATION

Dev Nandan Kumar & Dr. Tanu Tandon

There are multiple subjects and disciplines of study with their own distinct features. Each one of these subjects has some association with human beings. But there is one subject which is completely about human beings. Yes, we are talking of Disability Studies which includes Disability Rehabilitation and Special Education. This is a career field most suited for those who have a passion for teaching and love as well as concern for persons with disabilities (Divyangjan).

Disability rehabilitation and Special education can be understood as personalized training and schooling given to persons with diverse disabilities, whether locomotor disability, visual impairment, hearing impair-

ment, chronic neurological conditions, persons affected with blood related disorders, developmental disorders, mental illness or multiple disabilities. Persons with disabilities require training and instruction by specially trained professionals. The field offers different career opportunities- including teaching and instruction, as well as curriculum development for children with disabilities and adults. A Rehabilitation professional or Special education teacher is one who is specially trained to teach and interact with children and youth who have a variety of disabilities. The various types of disabilities that require services of rehabilitation professional or special education trained personnel include locomotor disability, visual impairment, hearing impairment, chronic neurological conditions,

persons affected with blood related disorders, developmental disorders, mental illness and multiple disabilities. Children with these disabilities are unable to learn in a traditional classroom environment. Special education classes can provide an alternative or better learning experience for these students.

Rehabilitation professionals and Special education teachers work for persons with locomotor disability, visual impairment, hearing impairment, chronic neurological conditions, developmental disorders, mental illness and multiple disabilities. They teach and provide them basic rehabilitation services including literacy, independent living skills and communication skills. The work of special education teacher can be emotionally demanding and

physically draining. Many students with mental or emotional disabilities can cause frustration for a teacher. A special education teacher should also have a solid understanding of human psychology and emotions.

Population of Persons with Disabilities in India

According to Census 2011, there are 2.68 million Persons with Disabilities in India (who constitute 2.21 percent of the total population). Out of the total population of Persons with Disabilities, about 1.50 million are male and 1.18 million female. These include persons with visual, hearing, speech and loco-motor disabilities; mental illness, mental retardation, multiple disabilities and other disabilities. The percentage of persons with disabilities in the USA is 12%, in the UK is

PM's Independence Day Speech Highlights

WWW.JOBRIYA.COM

The Prime Minister, Shri Narendra Modi addressed the nation from the ramparts of the Red Fort on the 72nd Independence Day on 15 August, 2018. Following are the highlights from his speech:

- Today, the country is full of self-confidence. The country is scaling new heights by working extremely hard with a resolve to scale new heights.
- We have been celebrating this festival of independence, at a time when our daughters from states of Uttarakhand, Himachal, Manipur, Telangana and Andhra Pradesh have come back after circumnavigating the seven seas. They have come back amongst us by (unfurling tricolour in seven seas) turning the seven seas into the colour of our Tricolor.
- Our young tribal children, those who live in our forests in the far-flung areas, they have enhanced the glory of the tri-colour by unfurling it on the Mount Everest.
- Whether it is a Dalit or be it someone who has been persecuted or exploited or be it a deprived person or women, our Parliament has made the social justice even more stronger with all the sensitivity and alertness to protect their interests.
- The demand to give constitutional status to the OBC commission had been raised for years. This time our Parliament has made an effort to protect the interests of backward classes, interests of the extremely backward classes by according the constitutional status to the OBC commission.
- I want to reassure the people who have lost their loved ones and are facing a lot of distress due to floods that the country is with them and is making complete efforts for helping them out. My heartfelt condolences are with those who have lost their loved ones.
- The next year will mark 100 years of the Jallianwallah bagh massacre. The masses had sacrificed their lives for the country's freedom; and the exploitation had crossed all limits. The Jallianwallah bagh incident inspires us of the sacrifices made by those brave hearts. I salute all those brave hearts from the bottom of my heart.
- India has become the sixth

largest economy of the world.

- Today I salute those brave freedom fighters from the core of my heart on behalf of my countrymen. Our soldiers, the para-military forces and the Police are laying down their lives and are in service of the people of the country day in and day out for maintaining the splendour and dignity of the National flag, the tricolour.
- After independence, an highly inclusive constitution was drafted under the leadership of Baba Saheb Ambedkar. It came with the resolve of making a new India.
- India should be self-reliant, strong, always on the path of sustainable development. There should not only be a credence for India, but we also want that India should be effective in the world, we make India like that.
- When dreams, hard work and aspirations of 125 crores people come together, what can't be achieved?
- 125 crores Indians did not just stop at forming the government in 2014, instead, they continuously strived to make the country better. This is the strength of India.
- If you take into consideration the work that has been done in the last four years, you will be surprised to see the speed at which the country is moving and the pace at which the progress is being made.
- Had we worked at the speed of 2013, it would have taken centuries in making India 100% open defecation free or electrifying every part or even providing the LPG gas connection to every woman in rural and urban areas. Had we worked with the speed of 2013, an entire generation would have taken to connect the country with optical fibre. We will go by such speed to achieve all these goals.
- The country is experiencing change in the last four years. The country is progressing with new zeal, enthusiasm and courage. Today the country is

constructing twice the highways and four times more houses in the villages.

- The country is producing record foodgrains and manufacturing record number of mobile phones. The sale of tractors has reached a new high.
- After independence the country is buying largest numbers of airplanes.
- The new IIMs, IITs and AIIMS are being established in the country.
- The mission of Skill Development is being encouraged by establishing new centres in small places.
- Start-up programmes have mushroomed in Tier II and Tier III cities.
- Efforts are in progress to compile a 'common sign' dictionary for disable persons.
- Modernisation and technology has entered into the field of agriculture. Our farmers are using micro irrigation, drip irrigation and sprinkler irrigation methods.
- On the one hand, our soldiers help those who are at the brink of catastrophe with sympathy and empathy and on the other hand they are capable of attacking the enemies with surgical strikes.
- We should always progress with new objectives. When our goals are not clear, progress is not possible. We will not be in a position to solve the various problems for years together.
- We have decided with great courage to give attractive prices for the products of farmers. The minimum support price for many crops has been increased to more than 1.5 times the input costs.
- With the help of small traders, their openness and their aptitude to accept new things, the country has successfully implemented the GST. It has brought a new confidence among the traders.
- Benami Property Law has been implemented with great courage and intention for the good of the country.
- There was a time when the world used to call India's

economy risky. However, today, the same people and institutions have been saying with a lot of confidence that our reform momentum has been strengthening our fundamentals.

- There was a time when the world used to talk of 'Red Tape'. However, today the issue of 'Red Carpet' is being discussed. We have reached 100th position in the 'ease of doing business' ranking. Today, the entire world is looking at our achievement with pride.
- There was a time when for the world India meant - 'policy paralysis' and 'delayed reforms'. However, today India is being discussed for - 'reform, perform and transform'.
- There was a time when the world counted India among the 'fragile five'. However, today the world has been saying that India has become the destination for multi-trillion dollar investment.
- It is being said about India's economy that the 'sleeping elephant' has woken up and has started racing. The world economists and institutions have observed that for the next three decades India would contribute momentum to the global economic strength.
- India's stature has increased at the international forums, India has voiced its opinions strongly on such forums.
- Earlier India was awaiting membership of various international organisations. Now innumerable institutions have come forward to give membership to India. India has become a hope for all the other countries as far as global warming is concerned. International solar alliance is being welcomed throughout the world.
- Today we see a magnificent impression of North East in the field of sports.
- The last village in the North East has been electrified.
- We are getting progressive news about highways, railways, airways, waterways and information ways (I-ways) from North East.
- Our youths from the North East are establishing BPO in their areas.
- The North East region has turned to be a hub of organic farming. Sports university is being set up in North East.
- There was a time when

North East felt distant from Delhi but within last four years we have succeeded to get Delhi to the threshold of North East.

- In our country 65% of our population consists of 35 year old people. Our youth has brought a paradigm shift in the nature of job. Whether it is startup, BPO or e-commerce or the field of mobility, our youth has entered into new fields. Now a days our youth is committed to take this country to new heights.
- 13 crore people have availed MUDRA LOAN which is a great achievement. Of this 4 crore are youth who have availed loan for the very first time and are self-employed and progressing independently. This in itself is an example of changing atmosphere. Our youth are managing common service centres in three lakh villages and they are linking every village and citizen with the world in seconds by utilizing information technology.
- With the spirit of innovation of our scientists, we are going to launch 'NAVIC' which will be very useful for the fishermen and others.
- India has resolved to send manned spacecraft to the space by 2022. India will be the fourth country to do this.
- Now we are focussed on bringing modernisation and advancement in the field of agriculture. We have dreamt of doubling farmer's income by 75th year of Independence.
- We want to expand the horizons of agriculture with the help of modernization. We want to adopt value addition right from 'seeds - to -market'. For the first time we are progressing in the path of Agriculture Export Policy so as to enable our farmers to emerge powerful in the world market.
- Now new avenues of organic farming, blue revolution, sweet revolution, solar farming have emerged on which we plan to move ahead.
- In fisheries, India has emerged second largest country of the world.
- The export of honey has doubled.
- It is a matter of pleasure for the sugarcane farmers that the production of ethanol has tripled.
- In rural economy, the other sectors are also important. We want to increase the resources of rural area,

THE VISION...

developed country, a country that reaches out and cares for the weakest. Let this be our second resolution for the New Century. We have to excel as individuals and as a nation. We have the best talent in science and technology. Our sportsmen are rated among the best in the world. Our teachers are in demand in the best universities abroad. Our farmers defy great odds to produce record harvests. Our industry has the potential to stand up to all competition. The closing decades of the twentieth century have fetched a bounty of opportunities. New vistas have been opened up by discoveries that could not have been imagined even twenty years ago. With such talent and resources, we can excel as a nation. We must seize the opportunities of the coming era to emerge as a mighty nation whose strength shall lie in her achievements. Excellence shall be our watchword. Let this be our third resolution for the New Century. On January 26 we will

celebrate the Golden Jubilee of our Republic. The Constitution of India has served as the beacon for our democracy, establishing the rule of law and the supremacy of the people. In fifty years, we have grown to become a vibrant democracy, and the world's largest. But while the spirit of democracy and the faith of the people in a democratic system have survived the test of time, our institutions have begun to show signs of corrosion. That needs to be checked and rectified immediately. To ensure the health of our democracy, our institutions need to be strengthened, with your help, to meet the challenges of the twenty first century. India's institutions shall be restored to health. Let this be our fourth resolution for the New Century. Dear Countrymen, we enter the twenty first century with a civilizational history that stretches back to more than five thousand years. From time immemorial, we have nourished traditions and values. They are our real strength. They are the gift India has preserved for the world through

ages. They are the truths to which the world has now begun to turn-for direction, for solace, for wisdom. As Sri Aurobindo said: "The sun of India's destiny would rise and fill all India with its light and overflow India and overflow Asia and overflow the world." Let us make that vision come true. Let us make the New Century an Indian Century. May 2000 and the decades beyond truly be a new age, a new era of security and brotherhood among all peoples and prosperity for all nations."

Career Opportunities

Based on the recommendations on the National Education Policy 1986; the Rehabilitation Council of India (RCI), a statutory body under the Ministry of Social Justice and Empowerment, Government of India, has been entrusted the responsibility of framing the policies and programmes for developing the rehabilitation professionals and special educator required for rehabilitation and education of the persons with disabilities (Divyangjan). The Right to Free and Compulsory Education (RTE) Act 2010 and its amendment in 2012 is talking about minimum 1:30 teacher and students ratio for all children including children with disabilities. However, the RCI has trained approximately one lakh professionals in total 16 disciplines from certificate to Ph.D. levels courses through 745 RCI recognized training colleges throughout India as on date and present ratio of trained professional and persons with disabilities is approximately 1:268. There is huge gap between demand and supply of trained professionals in the field of disability rehabilitation and special education. Now the UGC and RCI are striving to focus on higher studies to meet current requirements of rehabilitation professionals. Both Master's and doctoral students are prepared to play leadership roles in the field of disability rehabilitation and special education. For master's students, future careers include administrative and policy positions in community service agencies, advocacy organizations, independent living centers, parent centers, planning councils, and government agencies. Doctoral students are prepared for a variety of academic, research, and policy positions. Although all students receive training in Disability Studies, each student's program of study is different, depending on individual backgrounds and interests.

Categories of Rehabilitation Professionals

To serve existing types of persons with disabilities the RCI presently categorized rehabilitation professionals in various areas which are, Audiologist and Speech Therapist, Speech Pathologists/ Speech & Hearing Technicians, Hearing Aid and Ear Mould Technicians, Special Educators for Educating and Training the Disabled, Rehabilitation Counselors/ Administrators, Vocational Counselors, Employment Officers and Placement Officers, Rehabilitation Social Workers, Multi-purpose Rehabilitation Therapists/ Technicians, Community Based Rehabilitation Professionals, Clinical Psychologist, Rehabilitation Psychologist, Rehabilitation Practitioners in mental Retardation, Orientation & Mobility Specialists, Rehabilitation Engineers and Technicians, Prosthetics and Orthotics, Rehabilitation Workshop Managers.

Self Employment

The services of trained professionals are limited to district headquarters level. However, there is urgent need to ensure rehabilitation and special education services at Block, and subdivision level. But due to shortage of trained professionals Govt. is unable to train rehabilitation professionals. Recently passed Right to Persons with Disability Act 2016 added 14 more categories of disabilities. Hence, there will requirement of many other categories of professionals to serve these added categories.

GST

TO BECOME BETTER & SIMPLER FOR SMALL TAXPAYERS

The GST Council, in its 28th meeting held on 21st July, 2018, has recommended a number of changes in the GST laws for the benefit of small taxpayers. Some of the significant measures are:-

Upper limit of turnover for opting for composition scheme to be raised from ₹ 1 Crore to ₹ 1.5 Crore.

Composition dealers to be allowed to supply services (other than restaurant services) for upto a value not exceeding 10% of turnover in the preceding financial year, or ₹ 5 Lakh, which is higher.

Levy of GST on reverse charge mechanism on receipt of supplies from unregistered suppliers, to be applicable to only specified goods or services or both in case of certain notified classes of registered persons, as recommended by the GST Council.

Threshold exemption limit for registration in the States of Assam, Arunachal Pradesh, Himachal Pradesh, Meghalaya, Sikkim and Uttarakhand to be increased to ₹ 20 Lakh from ₹ 10 Lakh.

Registration to remain temporarily suspended while cancellation of registration is under process, so that the taxpayer is relieved of continued compliance under the law.

Commissioner to be empowered to extend the time limit for return of inputs and capital goods sent on job work, upto a period of one year and two years respectively.

Simplified GST Return: The GST Council in its 28th meeting has also approved the new simplified return formats. Benefits for small taxpayers include:-

- GST Council has approved quarterly filing of return for the small taxpayers having turnover below ₹ 5 Crore as an optional facility. Quarterly return will be similar to main return with monthly payment facility but for two kinds of registered persons - small traders making only B2C supplies or making B2B + B2C supplies. For such taxpayers, simplified returns called Sahaj and Sugam have been designed, wherein lesser details are to be filled than the regular return.

WWW.JOBRIYA.COM

- NIL return filers (no purchase and no sale) shall be given the facility to file return by sending SMS.
- Taxpayer would have facility to create his profile based on nature of supplies made and received. The fields of information which a taxpayer would be shown and would be required to fill in the return would depend on his profile.

WWW.JOBRIYA.COM

- Invoices can be uploaded continuously by the seller and can be continuously viewed and locked by the buyer for availing input tax credit. This process would ensure that very large part of the return is automatically filled based on the invoices uploaded by the buyer and accepted by the seller.
- The new return design provides facility for amendment of invoice and also other details filed in the return. Amendment shall be carried out by filing of a return called Amendment Return. Payment would be allowed to be made through the Amendment Return helping save interest liability.

Approximately 93% of the taxpayers have a turnover of less than ₹ 5 Crore and these taxpayers would benefit substantially from the simplification measures proposed.

These proposals will take effect after changes are made in the relevant GST laws by the Parliament and the Legislatures of the States and the Union Territories with Legislature.
