INDIA'S BEST EVER PERFORMANCE AT ASIAN GAMES

Vidhanshu Kumar

The recently concluded Asian Games in Jakarta has been a great success for the Indian contingent. With 69 Medals, 15 Gold, 24 silver and 30 bronze, this was the best medal haul in 68 years of Asian Games history for the Indian athletes. Not only did the Indian contingent create a new record, many individual athletes touched new heights and made a mark which nobody could do so far.

It is often said that sports doesn't build character, it reveals it. The dictum was at full display during the Asian Games held in Indonesia. There were many shining lights for India during the Games.

Indian athletes shined brightly in the track and field events.

Some athletes won more than one medal for our country. One such athlete is Hima Das who won two silver and one gold

Prime Minister, Shri Narendra Modi interacting with Medal Winners of the Asian Games-2018, in New Delhi on September 05, 2018. The Minister of State for Youth Affairs & Sports and Information & Broadcasting (I/C), Col. Rajyavardhan Singh Rathore is also seen.

medal. In 400 meter dash, Hima won the silver medal while in two relay events she won one gold and another silver medal. Hima is the only athlete in the Indian

contingent of more than 700 people who won three medals. Such was Hima's performance that had she been a country, she would have finished at number

27 in the overall medals tally. In the mixed 4 x 400 meters relay events Hima won the silver medal. But her best performance was in women's 4 x 400 meter

relay event. Hima won the gold medal of this event with her three other relay partners.

Just like Hima Das, Dutee Chand was another gem in India's crown.

Dutee won two silver medals. Her first medal came in 100 meters sprint while she won another silver in 200 meters dash. This twenty year old athlete from Orissa who touched this mark and reminded one of PT Usha who did it in earlier Asian Games at South Korea in the 80's.

Another excellent performance from track events came from middle distance runner Jinson Johnson who won one gold and one silver medal in 1500 and 800 meters events. The 1500 meter was a tremendous run that reminded one about the feats of Hischam el G. and Sebastian Coe in the Olympic Games.

EMPLOYABILITY SKILLS- A NEW VISTA FOR EMPLOYMENT OF THE YOUTH

Nidhi Prasad

India is one of the fastest growing economies in the world today. Recent surveys indicate that by 2030, it will be the third largest economy in the world just behind US and China. Couple this with the fact that we will have 50-70 million jobs created by 2020 and you have a fantastic opportunity in the making!

Coincidentally, India has the largest youth population in the world, almost a third of the Indians are between 15 and 29 years old making this country the world's youngest with 64% of its population in the working age group.

By 2020, the average age of the country will be 29.

All this has been possible as India has made significant progress in ensuring access to education for all through its Sarva Shiksha Abhiyan (Education for All) programme and the implementation of the landmark "Right of Children to

Free and Compulsory Education" (RTE) Act.

Despite these achievements, challenges remain in moving beyond access, to a focus on learning and ensuring equity. Over one-third of children drop out before completing the full cycle of elementary education. The majority of children not in school are from vulnerable and marginalized groups, including from Scheduled Castes and Scheduled Tribe groups, religious minorities groups, and children with disabilities. Evidence also indicates that children are not learning at expected levels. According to the National Achievement Survey conducted by the National Council on Educational Research and Training, less than half the reading comprehension questions and mathematical questions posed in the survey were answered correctly by Class 5 students.

Now the key question is - how do we remain employable,

excel in a job and survive the competition?

What are Employability skills?

Employability is related to work and the ability to be employed. The ability to gain initial employment. In simple terms the combination of qualities that make it easy for someone to get and keep a job.

Employability Skills can be defined as the transferable skills needed by an individual to make them 'employ-able'. Along with good technical understanding and subject knowledge, employers often outline a set of skills that they want from an employee.

Top in demand Employability skills

- Basic technology. There's no way around it: You must be computer literate in today's professional workplace.
- Communication. You must be able to communicate effectively, which means talking, listening and writing.
- Problem-Solving-Soft skills like problem-solving will

always be in fashion. It is unavoidable to be faced with a challenge at some point in your career, and when it rises, you need to be able to step up to offer a reasonable solution.

Willingness to Learn - If you think you know it all because you have spent three or more years studying the subject at College or University you are wrong! One should always be open and eager to learn new skills at work.

Teamwork - To increase your employability chances, you not only have to prove that you're a team player, but also have the ability to manage and delegate to others. You need to use an example of building positive relationships to help everyone and achieve a common goal.

Rote learning instills in students a sort of complacency for more than 12 years of education and they are unable to

INDIA'S BEST EVER ... Continued from page 1

Seven events and two days of track and field competition is the real test of strength, stamina and endurance. Swapna Burman crossed all the hurdles to win a gold medal in Heltathlon event. It was real passion, zeal and commitment by our athletes to see the tricolour fly high on the foreign soil.

Triple jumper Arpinder Singh also made a point by winning a gold in men's triple jump.

While the athletes were shining at the Asian level, one athlete who showed promise that was truly world-class was Neeraj Chopra. In this exhilarating display of technique and skills, javelin thrower Neeraj Chopra threw more than 88 meters and won the Gold medal. He has become a real hope for India at the World Championships and up-coming Tokyo Olympic Games.

Another player was exemplary in throw events. Twenty three year old shot putter Tajinder Pal Singh Toor set a new national record of 20.75 meter and also won the gold medal in men's shot put event.

While the athletes were shining India had some setback in the team events of Kabaddi and hockey. In both the sports Gold Medal was sure for Indian players but Iranian team was better in Kabaddi. In both Men and Women team event, Iranian team won the Gold medal. In Men's Hockey, Indian team had to be satisfied with the bronze medal. Malaysia beat India in the bronze medal match.

There were more smiles for India in archery and rowing though.

Indian archers and rowers put up a splendid performance by winning medals for the country.

Fifteen year old teen sensation Sourabh Choudhary was the youngest and 60 year old Shibnath Sarkar was the oldest gold medal winner of the Indian contingent. It shows the variety and dedication of the Indian athletes. Indeed various schemes launched by the Sports Ministry, like the TOPS scheme,

have started to pay rich dividends.

In wrestling events, India's Bajrang got the gold in 65kg and he is looking good in shape for the Tokyo Olympic Games too. Vinesh Phogat also won the gold medal in her category.

Shooting, Tennis, Badminton and Boxing are the games which were dominant in the medals race for India. Players such as Rahi, Sourabh, Rohan-Divij, Saina-Sindhu and Amit and Vikas have been doing excellently well and getting medals for India.

Few new games such as Kurash, Wushu, Bridge, Sepak Takraw, Equestrian and Rowing were also success stories in Jakarta.

In fact Squash and Table Tennis players are the silent heroes of the lot. Joshna Chinappa and Deepika Pallikal have been playing for very long and getting success. Table Tennis players such as Manika Batra and A Sharath Kamal are champions in their respective fields.

India has got the youngest population in the world and 70% population belong to the age group of below 30 years. It can be said that because of younger age more people are going for sports as a career. Especially looking at the age of athletes, when 15 year and 16 year old players are winning medals for the country.

Government Initiatives and outreach are paying dividends. The Government of India and the Sports Ministry has taken a number of steps and that is showing results. Among the many initiatives taken up by the, Central Government, 'Khelo India' is one that has caught everyone's attention. Khelo India School Games is a concept based on the Olympics model and was launched in January this year. This is a national level multi-disciplinary annual sports competition for under-17 school students of the country. Prime Minister launched this event at the Indira Gandhi Stadium in Delhi and said that sports should be given a 'central place' by the youth of the country.

A number of achievements and records were broken in the

inaugural edition of Khelo India School Games. The quality of competition at the Khelo India School Games was top notch. What was most encouraging was to see some of the champions at the Khelo India Games win laurels at international stages including Common Wealth Games.

Teenagers Manu Bhaker (shooting) and Srihari Nataraj (swimming) broke many records at the Khelo India School Games and emerged as champions from the ambitious program launched by the government. Manu won gold in 10 m Air Pistol with a new national record. Nataraj also broke national record in backstroke and won overall 6 gold and a silver medal at the Khelo India Games.

The two were rewarded with berths at the Common Wealth Games in Australia and they did not disappoint. Nataraj improved upon his record in 50 meters backstroke and reached the semifinals, but couldn't qualify for the finals.

Government has ambitious plans to take this flagship sports event forward. As its future endeavors the Ministry is planning to train more coaches at the very grassroot community levels so that they are able to provide the right coaching. Plans are also afoot to involve more girls in Khelo India initiative. Idea is to bring more behavioral changes and make playing sports a true culture in the country.

The Ministry is also developing an app that will give information about nearby grounds, playing facilities etc and also provide inputs on how to improve one's game. This app will fill the gaps in 'where to play' and 'how to play'. Government and PSU playing facilities location etc. can be accessed through this app. There will also be a number of 'how to play' videos in various disciplines.

Target Olympic Podium

One program that probably deserves maximum praise for getting medals at the Asia Games is the TOPS scheme.

"Target Olympic Podium Scheme" TOPS which is sponsored and run by Ministry of Sports and Youth Affairs and led

Prime Minister interacts with Medal Winners of 18th Asian Games

The Prime Minister, Shri Narendra Modi, interacted with the medal winners of the recently concluded 18th Asian Games, at his residence, on September 5, 2018.

The Prime Minister congratulated the medal winners and complimented them for their exemplary performance in the best ever medal tally for India in Asian Games. He told the medal winners that their sporting feats have raised India's stature and pride. He expressed hope that the medal winners will remain grounded and would not lose focus due to fame and accolades.

During the interaction, Prime Minister urged the sports persons to use technology as an aid to improve their performance. He added that sports persons should continue their self-improvement by using technology aided critical analysis of their performance as well as those of top players in the world.

Prime Minister expressed happiness in seeing young talents rise from the small towns, rural areas and from poor background and win medals for the nation. He said that there is real potential in the rural areas and we should continue nurturing those talents. He added that the outside world is unaware of the day-to-day struggles, a sports person has to go through.

Prime Minister got emotional while mentioning the names of some sports persons who had to go through immense hardships to be a medal winner for the nation. He saluted their grit and dedication to their disciplines and hoped that the rest of the country would get inspired from their efforts.

PM Modi urged the sports persons not to rest based on the laurels achieved and asked them to strive harder for greater glory. He said that the biggest challenge for the medal winners will start now and they should never lose their goal of being in the Olympic Games podium.

Minister of State (Independent Charge) for Youth Affairs and Sports, Col. Rajyavardhan Singh Rathore, was present on the occasion. In his opening remarks, Col. Rajyavardhan Singh Rathore said that Prime Minister's vision and government's initiatives played a vital role in the improved medal tally and in inspiring young sports persons.

India had garnered a record medal haul at the 18th Asian Games held at Jakarta and Palembang, Indonesia, by bagging 69 medals, beating the previous best of 65 medals won at Guangzhou Asian Games in 2010.

-PIB

by Col Rajyavardhan Singh Rathore has certainly boosted the Indian performance in the Asian and Commonwealth Games. Most of the athletes are in the list of TOPS athletes and they are getting the medals for the country.

The scheme is named as Target Olympic Podium (TOP) and was launched in 2014 by the Ministry of Youth Affairs and Sports.

The objective of the scheme is to identify medal prospects for 2016 and 2020 Olympic Games and also support them in their training. In the first stage of TOP, seven disciplines - Athletics, Archery, Badminton, Boxing, Shooting, Wrestling and Yachting - were identified. Around 100 athletes were selected in the stage who were

provided financial assistance to undertake training at top institutes in India and abroad.

Overall Team India has proved a point in Jakarta and now everybody is eyeing the Tokyo 2020 Olympic Games. Jakarta Asiad has raised the bar for India and dreams of winning big medals at highest level is becoming the new and happy reality for India. Indian athletes have proved that they can beat the best in the world if they are provided with best training and infrastructure facilities. It is heartening to see that sports has become a key sector for Indian policy makers and thus India is making rapid strides in the world of sports.

Publications Division Participates in the 24th Delhi Book Fair; Wins Gold Medal for the best regional language display

In consonance with its rich legacy, Publications Division, participated in the 24th edition of Delhi Book Fair from August 25 - September 2, 2018 at Pragati Maidan, New Delhi. Publications Division put up a rich display of its titles on History and Freedom Struggle, Art and Culture besides books on children and other subjects. The books brought out on Shri Atal Bihari Vajpayee have been the focus of the stall put up by Publications Division. Hundreds of people thronged Publications Division's stall. There were also counters for the reputed journals and magazines published by the Division - Yojana, Kurukshetra, Aikal, Bal Bharati, Employment News, Rojgar Samachar to disseminate knowledge and awareness in different fields.

In sync with its traditions, Publications Division launched a rich bouquet of 19 books in English, Hindi and regional languages which included biographies, arts and culture, heritage, freedom struggle and

children's books. Shri Amit Khare, Secretary, Ministry of Information & Broadcasting on August 30, 2018 released eight books including titles 'Ravindranath ki kala Sirashti', 'Bhakti: Uttar aur Dakshin Bharat ka Samanvya Sutra', 'Shruti aur Smriti', 'Dr. Keshav Baliram Hedgewar' (Kannada) and 'Pt. Deen Dayal Upadhyay' (Kannada). Dr. Sachchidanand Joshi, Member Secretary, Indira Gandhi National Centre for Arts (IGNCA) and Dr. Rita Rani Paliwal, Secretary, Sasta Sahitya Mandal and Dr Sadhna Rout, Director General, Publications Division were also present during the occasion.

On 28 August 2018, a bouquet of 11 more books on Children's literature was released in the presence of Dr. Madhu Pant, a well known author on children's literature, Shri Devendra Mewari, an eminent writer on popular Science & Science fiction and Dr Vasudha Gupta, Additional Director General, Publications Division. The books released included 'Dadi Maa ki Pati', 'Safar Suhana Swachhata Ka', 'Mai Hun Dost Tumhari Kavita' and 'Nivedita ka Naya Ghar aur Anya Kahaniyan'.

At the closing ceremony of the Delhi Book Fair on September 2, 2018, Publications Division bagged the gold trophy for the regional language display at its stall during the book fair.

DPD stall was a place of huge attraction for its wide range of books on History, Freedom Movement, Art and Culture. It provided Publications Division an opportunity to reach out to a wide segment of book loving public and to get valuable feedback from them. **-EN**

EMPLOYABILITY...

Continued from page 1

make the shift from unquestioning learners to innovators in the job market.

Why employability skills are important?

Employability skills are important because the market is intensely competitive, and employers in private and public sector are looking for people who are flexible, take the initiative and have the ability to undertake a variety of tasks in different environments.

Simply put, more and more research suggests that getting a degree, and putting a few letters after your name is just not enough to land you a job, or to launch your career. What you need is a portfolio of

employability skills. Employers like to recruit graduates who have gone the 'extra mile', can work both individually and in a team, shown a capacity for leadership, and demonstrated a willingness to take risks by spending time, travelling, and experiencing new situations and cultures and are armed with excellent communication skills.

The success of individuals in a knowledge-based economy will increasingly depend upon skills, creativity and imagination. While basic literacy, numeracy, technical skills, craft skills remain vital, today's economy and society increasingly demands people with an ability to cope with change and adapt quickly to new environments and people. This is why employability skills are more and more important!!

HOW TO DEVELOP EMPLOYABILITY SKILLS?

The pedagogy is changing. We need to pause, think and reconnect.

There is little learning for the sake of knowledge, expertise or interest. So, students pass out of schools and college with little or no real knowledge, limited reading, even less communication skills, and an inability to handle problem-solving. **WWW.JOBRIYA.COM**

These are just some highlights from the National Employability Report released by Aspiring Minds.

- ♦ 47 per cent graduates are NOT employable in any sector because they lack English language and cognitive skills.
- ♦ More than 50 per cent graduates do not know how to perform simple functions like copy-pasting text nor are they able to differentiate between hardware and software.
- ♦ Not more than 25 per cent of the graduating students can apply concepts to solve a real-world problem in the domain of Finance and Accounting.

So if a degree doesn't necessarily land you a good job, how can students improve their employability while still in college?

The gap in skills training is enormous. Life skills needed to enter the world of work is totally missing from our curriculum. Soft skills are an important requirement in the present job industry.

English is one of the key parameters in any role in the knowledge economy and as many as 47 per cent graduates lack even basic functional

knowledge of the language.

There are grammatical errors, spelling mistakes; SMS-style language and an absolute disregard for a coherent sentence structure, hence it is important to:

- ♦ Develop your reading habits. Make it a habit to read a book a month.
- ♦ Improve your writing skills. Just select a topic that interests you and write about it.
- ♦ Problem solving exercises could be applied to everyday situations in Schools/Colleges.
- ♦ Look for a group of like-minded people and engage in group discussions with them.
- ♦ Read the newspapers and browse the internet for updating your knowledge about the requirements of the profession you are interested in.
- ♦ Make yourself tech-savvy - everyone needs to keep abreast of IT advances, as they will shape jobs and organizations.
- ♦ Learn a new language - bilingual employees have a definite advantage in today's global world.
- ♦ Whenever possible, participate in College activities and be a part of the organizing committee for College events. These initiatives will teach you values of team work, leadership skills, communication skills and will go a long way in preparing you for the future.
- ♦ Positivity- having a positive attitude is often overlooked as an important skill to possess but is a good trait to have. Employers want staff

members with a 'can-do' attitude that work well under pressure and actually enjoy what they do.

The disconnect between education and industry is another important aspect of higher education. Broadly speaking, employers look for a mix of aptitude, language, personality and domain skills in selecting the right candidates for various roles in their organization.

As the saying goes, "self-help, is the best help", every individual is responsible for his or her own employability as they are the ones who should be requiring and acquiring the skills. Yet, the educational Institutions cannot escape their responsibility of playing a pivotal role in developing an individual's employability skills and growth, as they are the prime hubs of acquiring skills and knowledge. **(The author is a Senior Counseling Psychologist. India Post Payments Bank - a major initiative towards financial inclusion

The Prime Minister, Shri Narendra Modi, launched the India Post Payments Bank (IPPB) at Talkatora Stadium in New Delhi on September 1, 2018. The function was witnessed at over 3000 locations across the country, that were connected to the main event in Delhi. Speaking on the occasion, the Prime Minister said that through the India Post Payments Bank, banking services will conveniently reach the remotest places in the country, and the people living there. He recalled that the Union Government had earlier rolled out the Jan Dhan Yojana to establish financial inclusion. He said that today's launch of IPPB is one more step to achieve this objective. He said IPPB branches have opened across 650 districts.

The Prime Minister said that the postman has long been a respected and accepted person in the villages. He said the trust on the postman remains, despite the advent of modern technology. He said that the Government's approach is to reform existing frameworks and structures, and hence, transform them in accordance with the changing times. He said that there are over 1.5 lakh post offices and over three lakh postmen or "grameen dak sevaks" who are connected to the people of the country. Now they shall be empowered with smartphones and digital devices to provide financial services. Enumerating the benefits of IPPB, he said it will enable money transfer, transfer of government benefits, bill payments and other services such as investment and insurance. He added that postmen would deliver these services at the doorstep. He said that IPPB will also facilitate digital transactions, and help deliver the benefits of schemes such as Pradhan Mantri Fasal Bima Yojana, which provide assistance to farmers. The Prime Minister said that since 2014, the Union Government has been dealing firmly with the distortions and problems that had arisen in India's banking sector due to indiscriminate loan advances. He said existing loans have been reviewed and a professional approach has been taken with regard to the banking sector. He mentioned other measures such as the Fugitive Economic Offenders Bill, which have been taken to ensure that the guilty are punished. The Prime Minister said that now Mudra loans worth over 13 lakh crore rupees have been given to the poor and middle class, for creating self-employment opportunities. He said that today, as India achieves its best ever Asian Games performance, and the economy shows excellent growth numbers, the entire country is full of new self-confidence. He said this is the result of the collective efforts of the people. He said today India is not just the fastest growing economy in the world, but also the country that is eradicating poverty the fastest. The Prime Minister said that 3 lakh "dak sevaks" would be the key to provide financial services to every home, every farmer and every small enterprise in the villages. He mentioned that in recent months, several steps have been taken for the welfare of "dak sevaks" and to meet their long pending demand. These have led to a substantial increase in their salary, he added. He expressed confidence that IPPB shall reach over 1.5 lakh post offices across the country within the next few months.

India Post Payments Bank

To build the most accessible, affordable and trusted bank for the common man and to spearhead the financial inclusion agenda by removing the barriers for the unbanked and underbanked population is the prime vision and mission behind the launching of IPPB. IPPB has been set up under the Department of Posts, Ministry of Communications, with 100% equity owned by Government of India.

IPPB will offer a range of products such as savings and current accounts, remittances and money transfer, direct benefit transfers, bill and utility payments, and enterprise and merchant payments etc. These products, and related services, will be offered across multiple channels (Counter Services, Micro-ATM, Mobile Banking App, SMS and IVR), using a bank grade, cutting-edge technology platform. IPPB will partner with financial organizations to provide loans, investment and insurance products.

The IPPB has a vast network, with a rural India penetration of 1,30,000 access points (Post Offices), which is nearly 2.5 times the number of bank branches in rural India today. A large work force of 3 lakh+ Postmen and Gramin Dak Sevaks (GDS) will offer Assisted Doorstep Banking in rural, urban and remote areas.
