Indian economy becoming a 3 trillion dollar economy this year with World's 3rd largest economy in terms of Purchasing Power Parity, government's intention to invest Rs. 100 lakh crore in infrastructure in next 5 years, enhanced target of over one lakh 5,000 crore of disinvestment in 2019-20, proposal to provide Rs.70,000 crore to PSBs to boost credit, doubling of food security budget in last 5 years, faster adoption of Electric vehicles with an outlay of Rs.10,000 crore, opening of 18 new Indian diplomatic missions in Africa, development of 17 iconic Tourism Sites into world class tourist destinations and issuance of new series of coins of 1,2,5,10 & 20 rupees are some of the key highlights of the Union Budget 2019-20 presented to Parliament by Union Minister of Finance and Corporate Affairs Smt. Nirmala Sitharaman on July 5, 2019.

In her maiden Budget speech, the Finance Minister said that Har Ghar Jal to all rural households by 2024 under Jal Jeevan Mission, "Housing for All" by 2022 under Pradhan Mantri Awas Yojana-(Gramin), upgradation of 1,25,000 kms of rural road under PMGSY-III in 5 years with an outlay of more than 80,000 crore with all weather connectivity provided to over 97% of such habitations, common facility centres under SFURTI for Bamboo, Honey and Khadi clusters, setting up of 80 Livelihood Business Incubators and 20 Technology Business incubators in 2019-20 to develop 75,000 skilled entrepreneurs in agro-rural industry sectors are some of the important New Deals for the Rural and Agricultural sectors of the Economy.

Smt. Sitharaman said that the first term of PM Modi-led-NDA-Government stood out as a performing Government, a Government whose signature was in the last mile delivery. Between 2014-19, government provided a rejuvenated Centre-State dynamic, cooperative federalism, GST Council, and a strident commitment to fiscal discipline. It set the ball rolling for a New India, planned and assisted by the NITI Aayog, a broad based think tank and has shown its deeds that the principle of "Reform, Perform, Transform" can succeed.

The Finance Minister said that mega programmes and services initiated and delivered during the last 5 years will now be further accelerated and sincere efforts will be made to further simplify procedures, incentivize performance, reduce red-tape and make the best use of technology to achieve the desired goals.

The Finance Minister elaborated that the Indian economy will grow to become a 3 trillion dollar economy in the current year and will reach the vision of Prime Minister to become 5 trillion dollar economy in the

The Union Minister for Finance and Corporate Affairs, Smt. Nirmala Sitharaman along with the Minister of State for Finance and Corporate Affairs, Shri Anurag Singh Thakur arrives at Parliament House to present the Union Budget 2019-20, in New Delhi on July 05, 2019.

next five years. It is now the sixth largest in the world, while it was at 11th position in 2014. In Purchasing Power Parity terms, India is in fact, the 3rd largest economy

investments".

Referring to connectivity as the lifeblood of an economy, the Finance Minister said that the Government has given a massive

already, only next to China and the USA. She said that to attain this and more the country needs to continue undertaking many structural reforms like the many big reforms in particular in the last 5 years in indirect taxation, bankruptcy and real estate. Even the common man's life was being changed through MUDRA loans to help him do his business, and through several programmes it was being ensured that his/her kitchen had become smokeless, his/her house got electricity connection and women's dignity was respected with the provision of toilets in homes.

Smt. Sitharaman said that gone are the days of policy paralysis and license-quota-control regimes. India Inc. are India's job-creators and they are the nation's wealth-creators. She said, "Together, with mutual trust, we can gain, catalyze fast and attain sustained national growth. I wish to propose a number of initiatives as part of a framework for kick-starting the virtuous cycle of domestic and foreign

push to all forms of physical connectivity through Pradhan Mantri Gram Sadak Yojana, industrial corridors, dedicated freight corridors, Bharatmala and Sagarmala projects, Jal Marg Vikas and UDAN Schemes. While the industrial corridors would improve infrastructure availability for greater industrial investment in the catchment regions, the dedicated freight corridors would mitigate the congestion of our railway network benefitting the common man. The ambitious programme of Bharatmala would help develop national road corridors and highways, while Sagarmala would enhance port connectivity, modernization and port-linked industrialization. If Sagarmala is aimed at improving the infrastructure for external trade, equally it is the poor man's transport too. Waterways are proven as a cheap mode of transport. The Jal Marg Vikas project for capacity augmentation of navigation on National Waterways is aimed at smoothing internal trade carried

through inland water transport. These initiatives will improve logistics tremendously, reducing the cost of transportation and increasing the competitiveness of domestically produced goods.

The Finance Minister said that as the world's third largest domestic aviation market, the time is ripe for India to enter into aircraft financing and leasing activities from Indian shores. She said, for providing an enabling ecosystem for growth in India of Maintenance, Repair and Overhaul (MRO) industry, it is proposed to leverage India's engineering advantage and potential to achieve self-reliance in this vital aviation segment. She added that the government will adopt suitable policy interventions to create a congenial atmosphere for the development of MRO in the country.

The Finance Minister informed that Phase-II of FAME Scheme 2019, following approval of the Cabinet with an outlay of Rs.10,000 crore for a period of 3 years, has commenced from 1st April, 2019. The main objective of the Scheme is to encourage faster adoption of Electric vehicles by way of offering upfront incentive on purchase of Electric vehicles and also by establishing the necessary charging infrastructure for electric vehicles.

Dwelling on the Railways, Smt. Sitharaman said that it is estimated that Railway Infrastructure would need an investment of Rs. 50 lakh crores between 2018-2030. Given that the capital expenditure outlays of Railways are around 1.5 to 1.6 lakh crores per annum, completing even all sanctioned projects would take decades. It is therefore proposed to use Public-Private Partnership to unleash faster development and completion of tracks, rolling stock manufacturer and delivery of passenger freight services. She said that to take connectivity infrastructure to the next level, government will build on the successful model in ensuring power connectivity - One Nation, One Grid - that has ensured power availability to states at affordable rates and she proposed to make available a blueprint this year for developing gas grids, water grids, i-ways, and regional airports.

Referring to welfare measures, the Finance Minister said that the Government of India has decided to extend the pension benefit to about three crore retail traders & small shopkeepers whose annual turnover is less than Rs.1.5 crore under a new Scheme namely Pradhan Mantri Laghu Vyapari Mann-Dhan Yojana (PMLVY). Enrolment into the Scheme will be kept simple requiring only Aadhaar and a bank account and rest will be on self-declaration.

UNION BUDGET ... Continued from page 1

Recognizing that investment-driven growth requires access to low cost capital, the Finance Minister said, India requires investments averaging Rs. 20 lakh crores every year (USD 300 billion a year) and therefore a number of measures are proposed to enhance the sources of capital for infrastructure financing:

- A Credit Guarantee Enhancement Corporation for which regulations have been notified by the RBI, will be set up in 2019-20.
- An action plan to deepen the market for long term bonds including for deepening markets for corporate bond repos, credit default swaps etc., with specific focus on infrastructure sector, will be put in place.
- It is proposed to permit investments made by FIs/FPIs in debt securities issued by IDF-NBFCs to be transferred/sold to any domestic investor within the specified lock-in period.

On the subject of Foreign Direct Investment, Smt. Sitharaman said that FDI inflows into India have remained robust despite global headwinds. India's FDI inflows in 2018-19 remained strong at US\$ 64.375 billion marking a 6% growth over the previous year. She added that the Government will examine suggestions of further opening up of FDI in aviation, media (animation, AVGC) and insurance sectors in consultation with all stakeholders and suggested following measures:

- 100% Foreign Direct Investment (FDI) will be permitted for insurance intermediaries.
- Local sourcing norms will be eased for FDI in Single Brand Retail sector.
- FPIs will be permitted to subscribe to listed debt securities issued by REITs and InvITs.

On a similar issue, the Finance Minister informed that even though India is the world's top remittance recipient, NRI investment in Indian capital markets is comparatively less. With a view to provide NRIs with seamless access to Indian equities, she proposed to merge the NRI-Portfolio Investment Scheme Route with the Foreign Portfolio Investment Route.

Dwelling on the rural issues and Rural India, the Finance Minister said that Prime Minister Shri Narendra Modi's two mega initiatives of Ujjwala Yojana and Saubhagya Yojana have transformed the lives of every rural family, dramatically improving ease of their living. Household access to clean cooking gas has seen an unprecedented expansion, through provision of more than 7 crore LPG connections. All villages, and almost 100% households across the country have been provided with electricity. She informed that by 2022, the 75th year of India's independence, every single rural family, except those who are unwilling to take the connection will have an electricity and a clean cooking facility. Similarly, under Pradhan Mantri Awas Yojana - Gramin (PMAY-G) a total of 1.54 crore rural homes have been completed in the last five years. In

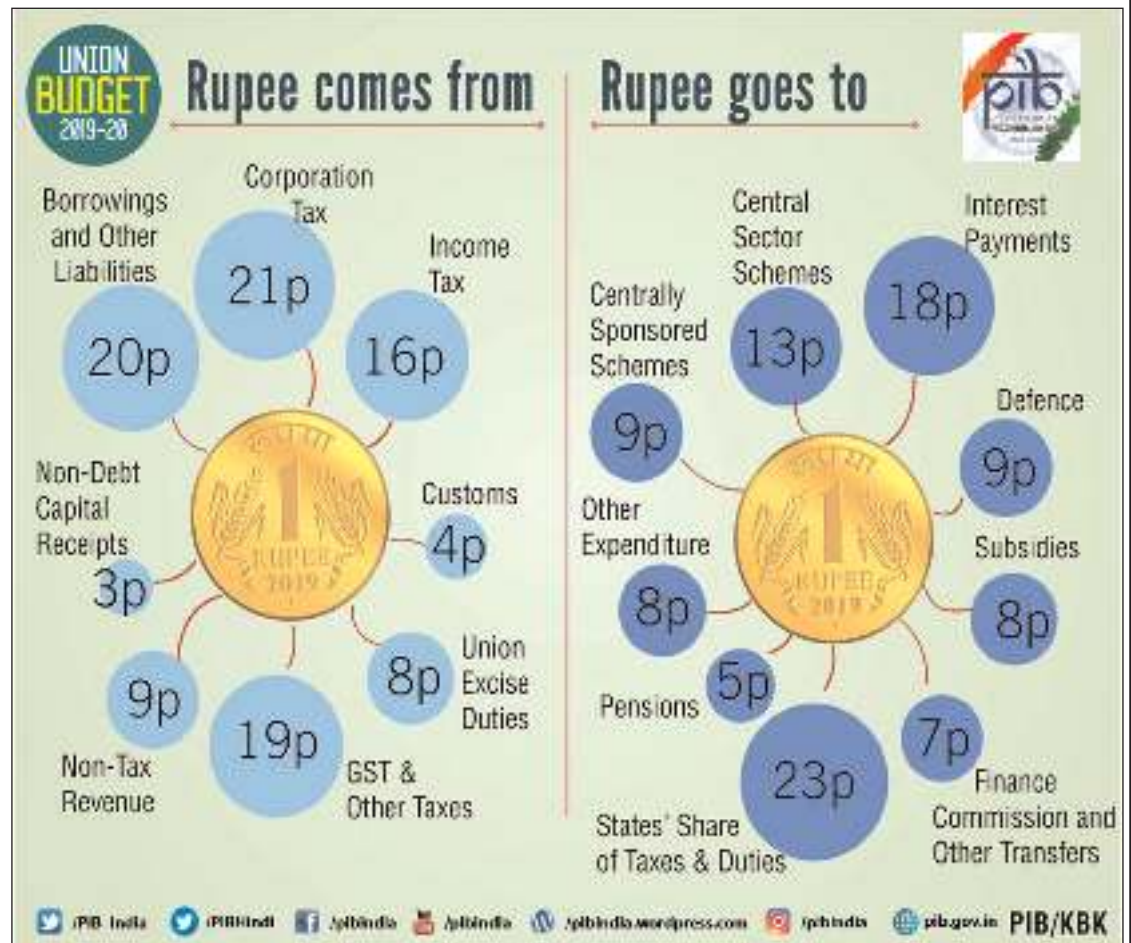

the second phase of PMAY-G, during 2019-20 to 2021-22, 1.95 crore houses are proposed to be provided to the eligible beneficiaries. These houses are also being provided with amenities like toilets, electricity and LPG connections. With the use of technology, the DBT platform and technology inputs, average number of days for completion of houses has reduced from 314 days in 2015-16 to 114 days in 2017-18.

The Finance Minister said that Pradhan Mantri Gram Sadak Yojana (PMGSY) has brought many socio economic gains in the rural areas and its target for completion was advanced from 2022 to 2019, as all weather connectivity has now been provided to over 97% of such habitations. This has been possible by maintaining a high pace of road construction of 130 to 135 km per day in the last 1,000 days. She underlined that the PMGSY-III is envisaged to upgrade 1,25,000 kms of road length over the next five years, with an estimated cost of Rs. 80,250 crore.

Smt. Sitharaman said that the 'Scheme of Fund for Upgradation and Regeneration of Traditional Industries' (SFURTI) aims to set up more Common Facility Centres (CFCs) to facilitate cluster based development to make the traditional industries more productive, profitable and capable for generating sustained employment opportunities. The focused sectors are Bamboo, Honey and Khadi clusters. The SFURTI envisions setting up 100 new clusters during 2019-20 which should enable 50,000 artisans to join the economic value chain. Further, to improve the technology of such industries, the Scheme for Promotion of Innovation, Rural Industry and Entrepreneurship (ASPIRE) has been consolidated for setting up of Livelihood Business Incubators (LBIs) and Technology Business Incubators (TBIs). The Scheme contemplates to set up 80 Livelihood Business Incubators (LBIs) and 20 Technology Business Incubators (TBIs) in 2019-20 to develop 75,000 skilled entrepreneurs in agro-rural industry sectors. Government also hopes to form 10,000 new Farmer Producer Organizations, to ensure economies of scale for farmers.

To provide benefits to fishermen communities through a focused Scheme - the Pradhan Mantri Matsya Sampada Yojana (PMMSY) - the Department of Fisheries will establish a robust fisheries management framework. They will address critical gaps in strengthening the value chain, including infrastructure, modernization, traceability, production, productivity, post-harvest management, and quality control.

Finance Minister said that ensuring India's water security and providing access to safe and adequate drinking water to all Indians is a priority of the Government. A major step in this direction has been the constitution of the Jal Shakti Mantralaya, integrating the Ministry of Water Resources, River Development and Ganga Rejuvenation and Ministry of Drinking Water and Sanitation. This new Mantralaya will look at the management of our water resources and water supply in an integrated and holistic manner, and will work with States to ensure Har Ghar Jal (हर घर जल)

(piped water supply) to all rural households by 2024 under the Jal Jeevan Mission. The Government has identified 1592 Blocks which are critical and over exploited, spread across 256 District for the Jal Shakti Abhiyan. Besides using funds available under various Schemes, the Government will also explore possibility of using additional funds available under the Compensatory Afforestation Fund Management and Planning Authority (CAMPA) for this purpose.

Under the Pradhan Mantri Gramin Digital Saksharta Abhiyan, over two crore rural Indians have so far been made digitally literate. To bridge rural-urban digital divide, Bharat-Net is targeting internet connectivity in local bodies in every Panchayat in the country. This will be speeded up with assistance from Universal Obligation Fund and under a Public Private Partnership arrangement.

Under Pradhan Mantri Awas Yojana - Urban (PMAY-Urban), over 81 lakh houses with an investment of about Rs.4.83 lakh crores have been sanctioned of which construction has started in about 47 lakh houses. Over 26 lakh houses have been completed of which nearly 24 lakh houses have been delivered to the beneficiaries. There is large scale adoption of new technologies for construction of these houses. Over 13 lakh houses have so far been constructed using these new technologies. www.Jobriya.com

The 150th birth anniversary of Mahatma Gandhi is an apt occasion for us to re-dedicate ourselves to the ideals of Mahatma Gandhi. Prime Minister Modi took the Sankalp of achieving Gandhiji's resolve of Swachh Bharat to make India Open Defecation Free by 2nd October 2019. I am very satisfied and happy to report that this would be achieved by the 2nd October.

The Finance Minister said that the Government will bring in a New National Education Policy to transform India's higher education system to one of the global best education systems. The new Policy proposes major changes in both school and higher education among others, better Governance systems and brings greater focus

on research and innovation. It also proposed to establish a National Research Foundation (NRF) to fund, coordinate and promote research in the country. She said that these initiatives have upgraded the quality of education. There was not a single Indian institution in the top 200 in the world university rankings five years back. Due to concerted efforts by our institutions to boost their standards and also project their credentials better, we have three institutions now - two IITs and IISc Bangalore - in the top 200 bracket.

Smt Sitharaman said that through the implementation of 'Kayakave Kailasa', the Government will enable about 10 million youth to take up industry-relevant skill training through the Pradhan Mantri Kaushal Vikas Yojana (PMKVY). This is helping to create a large pool of skilled manpower with speed and high standards. She also added that the government will also lay focus on new-age skills like Artificial Intelligence (AI), Internet of Things, Big Data, 3D Printing, Virtual Reality and Robotics, which are valued highly both within and outside the country, and offer much higher remuneration.

She said that the Government has decided to increase contribution to 12% for both Employees Provident Fund and Employee's Pension Scheme for all sectors w.e.f. 01.04.2018. As a result of this measure, number of beneficiaries increased by almost 88 lakhs during FY 2018-19. As on 31.03.2019, total beneficiaries under the Scheme are 1,18,05,000 and the establishments benefitting are 1,45,512. The Government is proposing to streamline multiple labour laws into a set of four labour codes. This will ensure that process of registration and filing of returns will get standardized and streamlined.

Smt Sitharaman said that this Government has supported and encouraged women entrepreneurship through various schemes such as MUDRA, Stand UP India and the Self Help Group (SHG) movement. In order to further encourage women enterprise, she proposed to

expand the Women SHG interest subvention programme to all districts. Furthermore, for every verified women SHG member having a Jan Dhan Bank Account, an overdraft of Rs.5,000 shall be allowed. One woman in every SHG will also be made eligible for a loan up to Rs. 1 lakh under the MUDRA Scheme.

On tourism front, the Finance Minister said that the Government is developing 17 iconic Tourism Sites into world class tourist destinations and to serve as a model for other tourism sites. The Iconic Tourism Sites would enhance visitor experience which would lead to increase visits of both domestic and international tourists at these destinations. She also informed that with the objective of preserving rich tribal cultural heritage, a digital repository is developed where documents, folk songs, photos & videos regarding their evolution, place of origin, lifestyle, architecture, education level, traditional art, folk dances and other anthropological details of the tribes in India are stored. The repository will further be enriched and strengthened.

The Finance Minister flagged the ten points of Government's Vision:

- Building physical and social infrastructure;
- Digital India reaching every sector of the economy;
- Pollution free India with green Mother Earth and Blue Skies;
- Make in India with particular emphasis on MSMEs, Start-ups, defence manufacturing, automobiles, electronics, fabs and batteries, and medical devices;
- Water, water management, clean Rivers;
- Blue Economy;
- Space programmes. Gaganyaan, Chandrayan and Satellite programmes;
- Self-sufficiency and export of food-grains, pulses, oilseeds, fruits and vegetables;
- Healthy society - Ayushman Bharat, well-nourished women & children. Safety of citizens
- Team India with Jan Bhagidari. Minimum Government Maximum Governance.

- e. In respect of equivalent clause in Essential Qualifications, if a candidate is claiming a particular qualification as equivalent qualification as per the requirement of advertisement then the candidate is required to produce order/letter in this regard, indicating the Authority (with number and date) under which it has been so treated otherwise the Application is liable to be rejected. The decision of CSIR with regard to equivalence of qualification(s) and about recognition of Universities/ Institutes shall be final and binding.
- f. The period of experience rendered by a candidate on part time basis, daily wages, visiting/guest faculty will not be counted while calculating the valid experience for short listing the candidates.
- g. If any document/Certificate furnished is in a language other than Hindi or English, a transcript of the same duly attested by a Gazetted Officer or notary is to be submitted.
- h. The date for determining the upper age limit, qualifications and / or experience shall be the closing date prescribed for submission of online applications, 07.08.2019 i.e.
- i. The period of experience in a discipline / area of work, wherever prescribed, should be in relevant area of work/field indicated against such posts and shall be counted after the date of acquiring the minimum prescribed educational qualifications prescribed for that post.
- j. Persons with disabilities (PWD) fulfilling the eligibility conditions prescribed under GOI instructions are encouraged to apply.
- k. Reservation for Economically Weaker Sections (EWS) is applicable as per GOI instructions.
- l. In case a candidate is staying abroad, his/her candidature may be considered in absentia by the Selection Committee on his/her written request.
- m. Any discrepancy found between the information given in application and as evident in original documents will make the candidate ineligible for appearing in the personal interview. Such candidate will not be paid any fare.
- n. Only outstation candidates called and found eligible for interview will be paid to and fro single second class rail fare from the actual place of undertaking the journey or from the normal place of their residence whichever is nearer to Jorhat Railway Station on production of Rail Tickets/Rail Ticket Numbers or any other proof of journey.
- o. The decision of the CSIR-NEIST, Jorhat in all matters relating to eligibility, acceptance or rejection of application, mode of selection, and conduct of examination/interview will be final and binding on the candidates.
- p. Canvassing in any form and/ or bringing any influence political or otherwise will be treated as a disqualification for the post.
- q. The Director, CSIR-NEIST reserves the right to cancel the advertisement without assigning any reason thereof.
- r. Notifications regarding dates for Personal Interview shall be displayed on the Institute's website: www.ncist.res.in
- s. No interim enquiry or correspondence will be entertained.

3. Relaxation:

- a. The upper age limit is relaxable upto 05(five) years for SC/ST and 03(three) years for OBC as per Government orders in force only in those cases where the posts are reserved for respective categories, on production of relevant certificate in the format prescribed by Govt. of India signed by the appropriate competent authority at the time of interview. It may please be noted that the appointments to the reserved posts will be provisional and subject to the verification of caste certificates through proper channel.
- b. Upper age limit is also relaxable upto five years for the regular employees working in CSIR Laboratories/Institutes, Government Departments, Autonomous Bodies and Public Sector Undertakings. This concession is admissible to such Govt. servants who have rendered not less than three years continuous service and are working in posts which are in the same line or allied cadres and where a relationship could be established (that the service already rendered in a particular post will be useful for the efficient discharge of the duties of the posts, recruitment to which has been advertised).
- c. Upper age limit for persons with disabilities shall be relaxable by
 - i. 10 Years relaxation is allowed. (15 years for SC/ST candidates and 13 years for OBC candidates).

English rendering of PM's address in 'Mann Ki Baat 2.0' Programme on All India Radio (30.06.2019)

www.Jobriya.com

My dear countrymen Namaskar. After a rather long pause, we are resuming once again, our series of touching upon matters close to people and their hearts; in fact subjects close to every person's heart... I am once again amidst you with our 'Mann Ki Baat'. The rigours of Elections called for hectic preoccupation, but the one thing that was missing was the sheer joy of 'Mann Ki Baat.' For me, it was like experiencing a kind of void. It used to be a chat in a genial atmosphere amidst the warmth of one's own family of 130 crore countrymen; we would listen, we would re-iterate; at times our expressions would turn into an inspiration for someone close to us. You can imagine how this period must have made one feel. Sunday, the last Sunday, at 11 o'clock, even I used to be uneasy, with a nagging feeling of a kind of emptiness... you too felt the same, didn't you? I am sure you did. Perhaps, this was not a lifeless programme. It was full of liveliness, warmth and fondness. And that is why, for me the intervening period was very difficult to bear. I used to miss something every moment; when I express myself through 'Mann Ki Baat,' the one speaking is me, the words are mine, the voice is mine, but the story is yours, the 'Purusharth' pertaining to your pursuits and goals is yours, the 'Parakram', the achievement is yours. I just used my words and my voice and that

'Ki Baat' had to go through. The rest is your inquisitiveness... I think, someday I'll talk about that too. WHEN, I can't say, but I'll do it for sure. You have every right as far as I am concerned. The way people have expressed their wish to know about Kedar, I feel a similar effort on your part to lay emphasis on positive things, which I get to know through your expressions.

The letters which steadily pour in for 'Mann Ki Baat', the inputs that are received are entirely different from routine Government matters. One way, a letter from you can act as a source of inspiration for me; on the other it may turn out to be a source of energy for me. There are times when some of your words act as a catalyst in sharpening my thought process. People bring to the fore challenges facing the country and society; they also come out with solutions for the same. I have seen for myself that in their letters, people go to great lengths in describing their problems; it is fascinating to see that in the same breath, they express directly or indirectly, a relevant solution or two, one suggestion or the other, or even an idea! If someone refers to sanitation and cleanliness, he or she invariably voices angst against filth & dirt, but on the same page appreciates efforts being under way to ensure cleanliness. When somebody talks about the environment, one can easily sense his or her crucial concerns on the matter; at the same time, experiments that the person has attempted or seen also come to the surface, with vivid descriptions of new ideas on the issue. This means, I can closely get a fair idea of your point, in terms of extrapolating a solution to a certain problem on a society-wide scale. 'Mann Ki Baat' is like a mirror to the country & our society. It conveys to us that there is no dearth of inner fortitude, strength & talent within our countrymen. The need of the hour is to synergise those strengths and talents, to provide opportunities, to implement them. 'Mann Ki Baat' also tells us that a 130 crore countrymen wish to be, strongly and actively, a part of the nation's progress. I receive a lot of letters and phone calls in 'Mann Ki Baat', but the element of complaint is negligible and I would like to tell you that in the last five years, I have not come across a single instance where somebody has asked for something for personal gain. Just imagine... a person writing to the Prime Minister of the country, but seeking nothing for one's own self... it is a reflection on the lofty collective demeanour of crores of people in the country. When I analyse this, you can visualise how heartening it must be for me, what a source of energy it is for me. You possibly don't know that you are the ones who make me walk, who make me run and keep me full of life and zest... this is the very bond that I used to miss. My heart is filled to the brim with joy today.

When it was about to end, I had stated that we would meet once again after 3 or 4 months, people assigned a political hue to it, saying 'Hey, Modi ji is so full of confidence, he is certain!'

The confidence was not Modi's. This trust was the trust of your foundation. You were the ones who transformed yourself into a pillar of trust. And that is why in the last episode of 'Mann Ki Baat', then, I effortlessly said that I would be back after a few months. Actually speaking, I have not RETURNED; you brought me back, you positioned me here and gave me the opportunity to speak once again. With this sentiment, come, let's take 'Mann Ki Baat' forward.

When Emergency was imposed on the country, resistance against it was not limited to the political arena or politicians; the movement was not curtailed to the confines of prison cells. There was an outrage in the conscience of one and all. The collective torment on the loss of democracy was evident. Day and night, when one gets to eat food on time, one doesn't realize what hunger pangs are. Similarly, in day to day life, it is difficult to savour the joy of democratic rights, unless they are snatched away. During Emergency, every citizen of the country had started getting the feeling that something that belonged to him had been snatched away. If what was snatched had never been enjoyed by that person, ever, it had to eventually precipitate into a painful inner agony. And it was not just on account of the fact that the constitution of India has made certain provisions that enabled Democracy to blossom. Of course, in order to ensure smooth conduct of the social order, a constitution is required... laws & rules are necessary, rights and duties should be part of due discourse. But, India can proudly proclaim that for us, beyond laws & rules, Democracy is embedded in our sanskar; Democracy is our culture. Democracy is our heritage; we grew up, nurturing ourselves on the fruits of that very heritage. And that is why the lack of it can be felt deeply by our countrymen, which is what we underwent during Emergency. And precisely for that, the country sacrificed one full Election, not for her own sake, but for the sake of protecting democracy. Perhaps, nowhere else in the world had citizens voted, without bothering about other rights & requirements, just for the sake of saving democracy. And the country had witnessed one such Election in '77. Just recently, our country celebrated a mega festival of democracy, a mammoth Election Campaign, from the rich to the poor, all were happily eager in this festival to decide the fate of their country.

When something is in close proximity of us, we tend to underestimate its importance; we ignore even amazing facts about it. We have been blessed with

a Democracy so invaluable, yet we take it for granted so easily. But, we must keep reminding ourselves that our Democracy is gloriously great, it flows in our veins, through centuries of Sadhana, dedicated practice, through the sanskar, attributes that have been passed on from generations over, through a collective largeness of the heart. In the 2019 Lok Sabha Election, India saw over 61 crore voters exercising their franchise... yes 61 crores. We can think of this figure as one ordinary but if I place it in a global perspective, if you exclude China, the number of people who voted in India exceeds the population of any other country in the world. The number of people who voted in the 2019 Lok Sabha Election is more than the entire population of America, close to double the figure. The total number of voters in India exceeds the entire population of Europe. This stands for the sheer size & spread of our Democracy. The 2019 Lok Sabha Election in history by far, was the largest democratic Election ever held in the world. You can imagine the kind of resources and manpower that was

"My dear countrymen, you may often have heard me say "No bouquet, just a book"! I had urged all to choose books over flowers in welcome or felicitation ceremonies. Since then, people have been offering books at many a place."

"I will still urge you in today's digital world and in the time of Google Guru, to take some time out from your daily routine and devote it to the book."

is why, I was not missing the programme... I was missing you. I was undergoing a bout of emptiness. There came a moment when I felt the need to reach out to you immediately after the Elections concluded. Then I thought... No! The established Sunday sequence should be maintained. But this Sunday has made one wait endlessly! Anyway, finally the opportunity has dawned. In a family like atmosphere, these plain, simple reflections become the reason for change in life, in society. Begetting a new spirit, in a way fortifying the spirit of New India, let us wish this endeavour embarks upon its onward journey.

Over the last few months, many messages have poured in, with people stating that they have been missing 'Mann Ki Baat'. When I read them, when I hear them, it gives me joy. It's a warm feeling of kinship. There are times when I feel that this is my journey from the self to the unabridged whole; my journey from 'I' to 'We'. For me, this nonvocal conversation with you was a part of my feelings during my spiritual journey. Amidst hectic Election engagements, many people asked me a flurry of questions on why I had gone up to Kedarnath. You have every right; I can understand your curiosity... and I too feel that my sentiments reach you. But today, I think, if I change the course of the conversation that way, the entire complexion of 'Mann Ki Baat' will change. Amidst the rigours of the Election, speculations on victory or defeat, before the polling was yet to start; I undertook the journey. Most people have derived political conclusions out of that. For me, it was an opportunity to meet myself. In a way, I undertook the journey to meet my inner self. I shall not reveal other things today, but I certainly want to tell you that perhaps in that solitary cave, I got an opportunity to fill up the vacuum caused due to the long pause that 'Mann

required for such a mammoth exercise. Lakhs of teachers, officers & staff strived day & night to make it possible. In order to successfully conclude this 'Mahayagya', on the one hand, whereas close to three lakh paramilitary personnel discharged their duty; on the other, 20 lakh Police personnel of various states too, persevered with due diligence. It is on account of these people that this time voting took place on a larger scale compared to the previous Election. For the voting, there were around 10 lakh polling stations, more than 40 lakh EVM machines, over 17 lakh VVPAT machines... you can imagine the gargantuan task! All this was done, just to ensure that no voter was deprived of his or her voting rights. In a remote area of Arunachal Pradesh, just for a lone woman voter, a polling station was created. You will be amazed to know that it took a journey of two days for personnel of the Election Commission, just to reach there... this is honour to democracy at its best. The world's highest located polling station too, is in India. At an altitude of 15,000 feet, it is located in the LahaulSpiti region of Himachal Pradesh. Besides this, there is another fact pertaining to these Elections, that swells our hearts with pride. Perhaps, this is the first time ever, that women have enthusiastically voted, as much as men did. This time the ratio of men & women who voted was almost the same. Another encouraging fact is that, today, there are a record 78 women Members of Parliament. I congratulate the Election Commission and every person connected with the electioneering process and salute the aware voters of India.

My dear countrymen, you may often have heard me say "No bouquet, just a book"! I had urged all to choose books over flowers in welcome or felicitation ceremonies. Since then, people have been offering books at many a place. Just

recently, someone gave me a book entitled 'Premchand Ki Lokapriya Kahaniyan', popular short stories by Premchand. It was a great feeling. Of course, I couldn't get much time, but during my travelling, I got an opportunity to read some of his short stories once again. Images of the stark social realities that Premchand has portrayed in his stories vividly start forming in one's mind when you read them. Each & every element of his writings comes alive. His stories are expressions of human emotions through simple, lucid language... they have touched my heart. His stories embody the collective psyche, the cumulative being of the country, of the land. While reading one of his stories 'Nashaa', I couldn't help but notice the scourge of economic disparity plaguing society. I was reminded of my younger days... how debates on this subject would carry on through entire nights! The moral of this story featuring the landholder's son Eeshwari and Beer from a poor family is that if you are not careful enough, you will never know when the bane of bad company engulfs you. The other story that touched the core of my heart was 'Eidgah'... the sensitivity of a young lad, his unsullied love for his grandmother, such maturity at that early age! When 4-5 years old Hamid comes back to his grandma with a pair of tongs, indeed, it stirs human emotions to their supreme pinnacle. The concluding line of this story makes one very emotional since it holds a vital truth about life, "Young Hamid played the role of aged Hamid – aged Ameena had turned into child Ameena".

Another such poignant story is 'Poos Ki Raat'. In this story, the living depiction of the paradoxes in a poor farmer's life is seen. Halku the farmer is happy even after his crops are destroyed by frost, because now he will not be forced to sleep in his fields in the cold winter. Though these stories were written about a century ago but remain relevant all the same even today. After reading these stories, I felt myself to be empathetic.

Now that we are conversing about reading, then in some extension of media, I had read about the Akshara Library in Kerala. You will be surprised to learn that this library lies in a village nestling within the dense forests of Idukki. A Primary school teacher, P.K. Muralidharan and P.V. Chinnathampi who runs a small tea shop, have between them worked tirelessly for this library. There was a time when the books were brought here stuffed in sacks and carried on the back. Today this library is a beacon guiding tribal children on a new path.

The Vaanche Gujarat campaign carried out in Gujarat was a successful experiment. Participants hailing from every age group in lakhs, participated in this campaign to read books. I will still urge you in today's digital world and in the time of Google Guru, to take some time out from

your daily routine and devote it to the book. You will really enjoy it a lot and do write about whichever book you read on the NarendraModi App so that all the listeners of 'Mann Ki Baat' also get to know about it.

My dear countrymen, I am happy that the people of our country are thinking about issues, which are posing a challenge not only at the present but also the future. I was reading your comments on NarendraModi App and Mygov and I saw that many people have written a lot about the prevailing water problem. Pawan Gaurai of Belagavi, Sitanshu Mohan Parida of Bhubaneswar, Yash Sharma, ShahabAltaf and many others have written about the challenges related with water. Water is of great importance in our culture. Rigveda's ApahSuktam says this about water:

आपो हिष्ठा मयो भुवः, स्था न ऊर्जे दधातन, महे रणाय चक्षसे,
यो वः शिवतमो रसः, तस्य भाजयतेह नः, उषतीरिव मातर!

Meaning that it is water which is the life force and also, the source of energy. Please bless us like a mother and may your blessings continue on to be showered upon us.

Water scarcity affects many parts of the country every year. You will be surprised that only 8% of the water received from rains in the entire year is harvested in our country. Just and just 8%! Now the time has come to find a solution to this problem. I believe, like the other problems on hand, we can also solve this predicament by the participation of the people, Janbhagidari and their power, Janshakti we are bound to find a solution through the strength, cooperation and resolution of one hundred and thirty crore citizens.

Therefore keeping the importance of water in mind, a new Jalashakti ministry has been created in the country. This will allow faster decision-making on all subjects related to water. A few days ago I tried to do something different. I wrote a letter to the Sarpanchs and Gram Pradhans across the country. That in order to save water, to collect water, to save the very drops of the rainwater, they should convene a meeting of the Gram Sabha and sit and discuss the resolution to this problem with the villagers. I am happy that they have shown exemplary enthusiasm on this front and on 22nd of this month crores of people contributed free labour, Shramdaana cross thousands of panchayats. People in village after village resolved to accumulate every single drop of rainwater.

Today, I want to narrate the story of a sarpanch in the 'Mann Ki Baat' programme. Come let's listen to what the Sarpanch of Lupung Panchayat of Katakmasandi block in Hazaribagh district of Jharkhand has to say to all of us through this message:

DILIP KUMAR RAVIDAS

This is Birsa Munda's land, where cohabiting in harmony with nature is a part of the culture. The people here, once again, are ready to play their active role in water conservation. For my part I wish good luck to all the village heads and all the sarpanchs for their dynamism. There are several Sarpanchs across the country who have taken the lead in water conservation.

In a way, entire villages have grasped this opportunity as collective responsibility. And it seems that the denizens of the villages have become involved in the competition for raising a 'water temple,' in their respective villages. As I've said, a collective effort begets massive positive results. There cannot be a single formula for dealing with water crisis across the country. For this, efforts are being made in different parts of the country, in diverse ways. But the goal remains the same, and that is to save water and adopt water conservation.

The drainage lines are being fixed in Punjab. This effort would rid of the problem of water logging. The construction of the water-tank in Telangana's Thimmaipalli is changing the lives of the people of the village. There has been a major change through construction of small ponds in the fields at Kabirdham in Rajasthan. I was reading about the collective endeavour in Vellore of Tamilnadu where 20 thousand women came together to revive the Nag river. I have also read about those women of Garhwal, who are working together on the good work of implementing rainwater harvesting. I believe that many such attempts are being made and we can turn impossible in to possible when we are together and strive with collective resolve. When people will join hands, water will be conserved. Today, through the 'Mann Ki Baat' programme, I am entreating 3 requests to the fellow countrymen.

My first request is that just like cleanliness drive has been given the shape of a mass movement by the countrymen, let's also start a mass movement for water conservation. We together should all resolve to save every drop of water and I believe that water is God's prasad to us, water is like philosopher's stone! Earlier it was said that by the touch of philosopher's stone, iron could be transmuted in to gold. I tell you, water is philosopher's stone and its mere touch creates and regenerates life! Let us start an awareness campaign to save even a single drop of water. In this campaign not only should we focus on water related problems but propagate ways to save water as well. I specifically urge the luminaries belonging to different walks of life to lead promotion of water conservation through innovative campaigns. Whether it be from the world of films, sports, our friends in the media, people belonging to social organizations, people associated with cultural organizations or people involved in conducting devotional congregations such as Katha - Kirtan, everyone should lead this movement in their own fashion. We must wake up the society, unite the society and join the society in this endeavour. You'll see, we will find change occurring in front of our own eyes.

My second request to the countrymen is to share many traditional methods that have been in use over the centuries in our country for the conservation of water. I urge all of you to share these traditional methods of water conservation. If any of you gets an opportunity to go to Porbandar, the place of birth of revered Bapu, then there is a house behind the house of revered Bapu, where a 200-year old water tank still exists. It is still capable of storing water and has a mechanism to harvest rain water! As I always say that whosoever visits Kirti Mandir, should also pay a visit to that Water Tank. And there must be many types of such examples of experimentation in water conservation throughout our nation!

My third request to all of you is that share the information concerning the people who are making significant contributions towards water conservation, NGOs and everyone else associated in the area of water conservation in order to create an intensive database of individuals and organizations dedicated to water preservation. Come let us join water conservation, and involve ourselves in making a list of more and more innovative methods to motivate people to conserve

water. You can all share your content using the # JanShakti4JalShakti hashtag.

My dear countrymen, I must express my gratitude to you and to the people of the world for one more thing! On 21st June, once again, Yoga Day was celebrated together with fervor and enthusiasm, there were instances of three-four generations of each family coming together to participate on Yoga Day. The awareness about Holistic Health Care has enhanced the glory of yoga and Yoga day. In any corner of the world, yoga enthusiast welcomes the sun as soon it rises and then there is the complete journey ending with sunset. There must hardly be a place where a human being exists without a bond with Yoga; Yoga has assumed such an iconic form. In India, over the Himalayas, across the Indian Ocean, from the lofty heights of Siachen to the depths of a Submarine, from air-force to aircraft carriers, from air-conditioned gyms to hot desert and from villages to cities - wherever possible, yoga was not just practiced everywhere, but was also celebrated collectively.

The Presidents, Prime Ministers, celebrities and ordinary citizens of many countries of the world showed me on the Twitter how they celebrated Yoga in their respective nations. On that day, the world appeared to be like one big happy family.

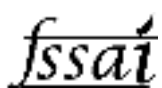

We all know that healthy and sensitive denizens are required to build a healthy society and Yoga ensures this very principle. Therefore promotion of Yoga is a great example of social service. Should we not recognize such service and bestow it with honour? In the year 2019, the announcement of Prime Minister's Awards for excellence in the promotion and development of yoga was a matter of great satisfaction for me. This award would be bestowed on those organizations around the world, whose significant and unique contributions in the promotion of yoga you cannot even imagine!

For example, take 'Japan Yoga Niketan', which has made Yoga popular throughout Japan. Japan Yoga Niketan runs many institutes and conducts various training courses. Italy's Ms. AntoniettaRozzi, has started "Sarv Yoga International," and popularized Yoga throughout Europe. These are inspirational examples in themselves. If there is a topic related to yoga, then can Indians lag behind others? The Bihar Yoga Vidyalaya in Munger dedicated to yoga from past many decades was also honoured. Similarly, Swami Rajarsri Muni the founder of Life Mission and Lakulish Yoga University was also honoured. The widespread celebration of Yoga and honouring those missionaries taking Yoga to the doorsteps of the common folk made this Yoga day special.

My dear countrymen, we're embarking on a new journey from today armed with new emotions, new realizations, new resolve and renewed vigour. But yes! I will keep on waiting for your suggestions. The process of linking with your thoughts through 'Mann Ki Baat' as a medium is a very important and personal journey for myself. Let us keep on meeting and keep on talking. Let me keep on listening to your thoughts, let me keep on understanding and cherish them. Let me sometimes try to live those very emotions. May your blessings remain there for me! You are my inspiration and you are my energy! Let's sit together and while enjoying 'Mann Ki Baat' try to fulfill the responsibilities of life. Once again next month we will meet again for another episode of 'Mann Ki Baat'. I Thank all of you once again.

Namaskar

BUDGET 2019-2020 FOR YOUNG INDIA

www.Jobriya.com

Vivek Ojha

IT+IT = IT means Indian Talent + Information Technology = India Tomorrow', 'Desire + Stability = Resolution', and 'we do not need ACTS but Action. This was the epitome of Indian notion of demographic dividend conceptualized by Prime Minister Narendra Modi when he came into the power. Innovation, skill development, entrepreneurship development, start up business, social business, formation of social and human capital, vocational training are the core issues of Modi's government to fulfill youth aspirations of the country. Taking into consideration the dreams of Indian youths, Budget 2019-2020 has proposed effective steps to garner the fruits of knowledge based society and knowledge based economy.

Union Finance Minister Nirmala Sitharaman praised India Inc, saying that the country's job creators are the nation's wealth creators while presenting the Union Budget for 2019-20. Finance minister also talked about the new National Education Policy. It has been proposed that National Research Foundation will assimilate all research grants given by different ministries independent of each other and will boost innovation and entrepreneurship.

Massive Open Online Courses through SWAYAM has been successful and is bridging digital divide. Finance minister proposed the programme Study in India to bring in foreign students.

This budget outlined that the legislation for setting up of Higher Education Commission will be presented later this year. 10 million youth will take up industry-relevant skill training under the Pradhanmantri Kaushal Vikas Yojana.

Multiple labour laws would be streamlined into four labour codes for ease of doing business domestically.

This year's budget proposed to start a TV channel, within DD's bouquet of channel, just for start-ups. Budget also mentioned Start up and Stand up schemes

achievements and outlined that these schemes are doing great job to protect human dignity and sense of entrepreneurship. Petroleum ministry of India has provided financial assistance to SC and ST communication to come out of human scavenging and become entrepreneurs.

Finance minister said during the budget speech that to make indian youths more competitive, skilled and innovation driven few more areas have to be identified like Artificial intelligence, Internet of Things, Big Data, virtual reality and Robotics. Finance minister gave youth aspirations of the country a cultural tone by mentioning the path showed by lord Basaveshwara for skill development in an egalitarian manner.

This years Budget outlined the significance of initiatives pertaining to youths like IMPRINT, GIAN, HEFA, NAD etc which have been taken to promote Quality Education in recent years.

The Government is committed to improve the quality of education and it is a continuous ongoing process. The vision of the Government of India is to realize India's human resource potential to its fullest in the education sector with equity and inclusion. The Government is

committed to provide equitable access to quality education to all sections of the society.

The Ministry of Human Resource Development took a leap forward in transforming education sector with the motto of "Sabko Shiksha, Achchi Shiksha" (Quality education to all). 'Education For All & Quality Education' guided policy actions and decisions enabling transformation have emphasized upon making education Available, Accessible, Affordable and Accountable. 'Education for All' has driven the expansion in education with new institutes of School (KVS, NVS), initiatives such as Right of Children to Free and Compulsory Education (RTE) Act, 2009, Sarva Shiksha Abhiyan (SSA) programme which aim for improvement in school infrastructure and in teaching and learning, Swachh Vidyalaya and e-governance initiatives like ShaGun Portal, e-Pathshala, Shaala Siddhi, Rashtriya Madhyamik Shiksha Abhiyan (RMSA), ICT in Schools, Centrally Sponsored Scheme on Teacher Education (CSSTE), Rashtriya Avishkar Abhiyan in secondary education and in Higher Education, new institutions like IITs, IIMs, IIITs, IISER etc. have been set up and Institutional capacity building

initiatives like, SWAYAM PRABHA - DTH channels on 24X7 basis for educational programmes, restructuring of IIT fees to make more inclusive, Amendments in UGC Act to make more gender sensitive, SWAYAM - MOOCs etc. have been undertaken. On the other hand 'Quality Education' has been emphasized with the thrust on promoting research & innovation, and initiatives like Impacting Research Innovation and Technology (IMPRINT), Global Initiative of Academic Network (GIAN), National Digital Library, National Institutional Ranking Framework (NIRF), Higher Educational Financing Agency (HEFA), Digital ISBN, National Academic Depository (NAD), Seema Darshan, Kala Utsav, Prashikshak Portal etc.

Ministry of Skill Development and Entrepreneurship (MSDE) has launched Pradhan Mantri Kaushal Vikas Yojna (PMKVY). Several great projects have taken place so far under PMKVY 1.0, which was launched in 2015. For PMKVY 2.0 (2016-2020), the focus has been on 'Craftsmen Training Scheme' running in over 15,042 Industrial Training Institutes across the country. Government plans to train 10 million youth by the year 2020 under PMKVY 2.0. With an aim to provide skilled work force to the industry in 138 trades, under this scheme people get an opportunity to get a training with duration of 6 months, 1 year and 2 year.

The responsibility of these projects is given to the Directorate General of Training (DGT), Ministry of Skill Development and Entrepreneurship (MSDE). According to Press Information Bureau, DGT has taken following initiatives to improve quality of skills for better employment opportunities.

Asserting that the development of youth was central to his government's policy, Prime Minister Narendra Modi had said that the government focused on four 'E's- education, employment, entrepreneurship and excellence--to help youths of this country. Prime minister told the

nation that in the last four year government had set up seven IITs, seven IIMs, one NIT, 14 IIITs, 103 Kendriya Vidyalyayas. The number of undergraduate medical seats increased from 50,000 in 2013-14 to 70,000 now. Post graduate seats went up, too, from 25,000 in 2013-14 to 33,000 now. 2,400 Atal Tinkering Centres were created to boost innovation.

Young India Aspirations and Barriers in the way -

Young India aspirations are not free from hurdles. Indian youths are facing problems of unemployment, lack of higher education facilities, lack of credit to start businesses etc. Silicon valley based e-learning firm Coursera's Global skills index released in 2019 found India lagging in two out of three future skills assessed - technology, business and data science. India was ranked 44th out of the 60 countries in the technology domain. It is, worth mentioning here that two thirds of the world population is falling behind in critical skills including 90 percent of developing economies.

Indian youth and Demographic Dividend-

India has one of the youngest populations in an ageing world. By 2020, the median age in India will be just 28, as compared to 37 in China and the US, 45 in Western Europe, and 49 in Japan. Demographics can change the pace and pattern of economic growth. While China's spectacular growth has already benefited from a demographic dividend, India is yet to do so.

Outlining the potential of India's demographic dividend India's envoy to Sri Lanka Taranjith Singh Sandhu recently outlined Sri Lanka that with an average age of 29 years per person, India will become the world's youngest country by 2020. Sixty-four per cent of India's population will be in the working age group by 2020. It can be pointed out that at a time when leading economies like Europe, US, South Korea, Japan are ageing, India holds the advantage of having an increased working population which is also known as functional population of 15 to 59 years of age group. Western Europe, the US, South Korea, Japan and even China ageing, this demographic potential offers India an unprecedented edge which could further contribute to the GDP growth rate. The core aim of India's foreign policy is to meet the developmental aspirations of its 1.30 billion people. Youth awakening call of Swami Vivekanand has to be materialized by the the government of India to make India safe, strong and prosperous internally as well as externally.

Economic Survey 2018-19

www.Jobriya.com

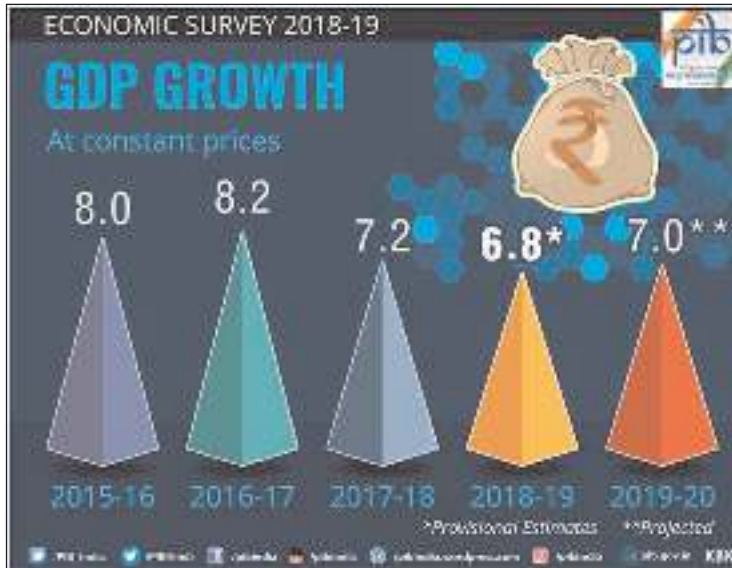

State of the Economy in 2018-19 - A Macro View

The Government has projected the real GDP growth for the year 2019-20 at 7 per cent, on the back of anticipated pickup in the growth of investment and acceleration in the growth of consumption. The Union Minister for Finance and Corporate Affairs, Smt Nirmala Sitharaman tabled the Economic Survey 2018-19 in Parliament on July 4th, 2019, which clearly stated that the year 2019-20 has delivered a huge political mandate for the government, which augurs well for the prospects of high economic growth. The April, 2019 Report of the World Economic Outlook (WEO) of International Monetary Fund (IMF) has projected India's GDP to grow even higher at 7.3 per cent in 2019. This is despite the Report projecting a decline in growth of world output and that of Emerging Market and Developing Economies (EMDEs) by 0.3 and 0.1 percentage points respectively.

India continues to remain the fastest growing major economy in the world in 2018-19, despite a slight moderation in its GDP growth from 7.2 per cent in 2017-18 to 6.8 per cent in 2018-19. On the other hand, the world output growth declined from 3.8 per cent in 2017 to 3.6 per cent in 2018. The slowdown in the world economy and Emerging Market and Developing Economies (EMDEs) in 2018 followed the escalation of US China trade tensions, tighter credit policies in China, and financial tightening alongside the normalization of monetary policy in the larger advanced economies.

India's growth of real GDP has been high with average growth of 7.5 per cent in the last 5 years (2014-15 onwards). The Indian economy grew at 6.8 per cent in 2018-19, thereby experiencing some moderation in growth when compared to the previous year. This moderation in growth momentum is mainly on account of lower growth in 'Agriculture & allied', 'Trade, hotel, transport, storage, communication and services related to broadcasting' and 'Public administration & defence' sectors. Acreage in 2018-19 for the rabi crop was marginally lower than last year, which affected agricultural performance. The contraction in food prices may have contributed to inducing farmers to produce less. On the demand side, lower growth of GDP in 2018-19 was accounted for, by a decline in growth of government final consumption, change in stocks and contraction in valuables.

On the external front, current account deficit (CAD) increased from 1.9 per cent of GDP in 2017-18 to 2.6 per cent in April-December 2018. The widening of the CAD was largely on

account of a higher trade deficit driven by rise in international crude oil prices (Indian basket). The trade deficit increased from US\$ 162.1 billion in 2017-18 to US\$ 184 billion 2018-19. Merchandise imports reduced from 21.1 per cent to 10.4 per cent. Growth in service exports and imports in US dollar terms declined to 5.5 per cent and 6.7 per cent respectively in 2018-19, from 18.8 per cent and 22.6 per cent respectively in 2017-18.

Rupee depreciated by 7.8 per cent vis-à-vis UD dollar, 7.7 per cent against Yen, and 6.8 per cent against Euro and Pound Sterling in 2018-19. During 2018-19, Indian rupee traded with a depreciating trend against UD dollar and touched Rs. 74.4 per US dollar in October 2018 before recovering to Rs. 69.2 per US dollar at end March 2019.

The foreign exchange reserves in nominal terms (including the valuation effects) decreased by US\$ 11.6 billion end-March 2019 over end-March 2018. Within the year, foreign exchange reserves were declining until October 2018 due to RBI's intervention to modulate exchange rate volatility. India's foreign exchange reserves continue to be comfortably placed at US \$ 422.2 billion, as on 14th June 2019.

Net Foreign Direct Investment (FDI) inflows grew by 14.2 per cent in 2018-19. Among the top sectors attracting FDI equity inflows, services, automobiles and chemicals were the major categories. By and large, FDI inflows have been growing at a high rate since 2015-16. This pick up indicates the improvement in confidence of the foreign investors in the Indian economy.

Indian banking sector has been dealing with twin balance sheet problem, which refers to stressed, corporate and bank balance sheets. The increase in Non-Performing Assets (NPA) of banks led to stress on balance sheets of banks, with the Public Sector Banks (PSBs) taking in more stress.

Consumption has always been

a strong and major driver of growth in the economy. Although the share of private consumption in GDP remains high, the pattern of consumption has undergone some changes over time- from essentials to luxuries and from goods to services

Decline in investment rate and fixed investment rate since 2011-12, seems to have bottomed out with some early signs of recovery since 2017-18. Fixed investment growth picked up from 8.3 per cent in 2016-17 to 9.3 per cent in 2017-18 and further to 10.0 per cent in 2018-19. The decline in fixed investment until 2016-17 was mainly by the household sector, with fixed investment by public sector and private corporate sector remaining almost at same levels.

Green shoots in the investment activity appear to be taking hold as also seen in the pickup in credit growth to industry. Credit to, both, large and micro, small and medium enterprises has seen pickup in growth. The growth of bank credit to micro, small and medium enterprises was contracting in 2016 and 2017, but has started picking up in 2018. Credit growth to large industry started declining since March 2016 and entered negative territory by October 2016. It has recovered since early 2017-18 and the momentum has picked up in the second half of 2018.

In year 2011-12, industry sector had the highest investment rate, followed by services, whereas the agriculture sector had investment rate much less than half of that of services. In 2017-18, investment rate in services sector became the highest. Investment rate in agriculture still continues to lag behind and now is half the investment rate in the industry sector. Simultaneously, there has been a decline in savings rate as well, with the household sector entirely contributing to the decline. Household savings declined from 23.6 % in 2011-12 to 17.2

% in 2017-18.

The trend of growth of exports and imports was different in 2018-19 in rupee and US dollar terms. While growth of both export and import declined in US\$ terms, it increased in rupee terms (at current prices) in 2018-19. This happened due to the depreciation of rupee vis-a vis US dollar in 2018-19.

Gross Value Added reflected a decline in economic activity, registering a growth of 6.6 per cent in 2018-19, lower than 6.9 per cent in 2017-18. Growth of net indirect taxes was 8.8 per cent in 2018-19, lower than that of 2017-18 on account of loss of momentum of economic activity.

Service sector is the most dynamic sector in the economy and has remained the key driver of economic growth along with being a major contributor to GVA and export basket of the Indian Economy. Service exports has become one of the mainstay of India's total exports increasing manifold, from Rs. 0.746 lakh crore in 2000-01 to Rs. 14.389 lakh crore in 2018-19, raising its share in total exports from 26.8 per cent to 38.4 per cent. Share of India in world service exports has also increased from 2 per cent in 2005 to 3.5 per cent in 2017. This share is much higher

manufacturing and construction activity, which have more than offset the declaration in the other two sub sectors, 'Mining & quarrying' and 'Electricity, gas, water supply & other utility services'. Manufacturing accounted for 16.4 per cent in total GVA in 2018-19, marginally higher than that of 'Agriculture & allied' sector.

The growth in manufacturing sector picked up in 2018-19, although the momentum slowed down towards the end of the financial year with a growth of 3.1 per cent in fourth quarter of the year, as compared to 12.1 per cent, 6.9 per cent and 6.4 per cent in first, second and third quarter respectively. The growth rate in Q4 of 2018-19 moderated considerably, on account of lower NBFC lending, which in part led to sales in the auto sector.

Construction sector growth is estimated using growth of production of cement and consumption of finished steel. Production of cement and consumption of finished steel grew at 13.3 per cent and 7.5 per cent respectively in 2018-19, higher than their growth rates in 2017-18 and this reflects in higher growth of construction sector in 2018-19.

www.Jobriya.com
than that of manufacturing exports which stands at 1.8 per cent in 2017.

Real growth in 'Agriculture & allied' sector was lower in 2018-19 at 2.9 per cent, after two years of good agriculture growth. As per the 3rd Advance Estimates released by Ministry of Agriculture & Farmers Welfare, the total production of foodgrains during 2018-19 is estimated at 283.4 million tones in 2017-18 (final estimate). There was a significant decline in food prices in 2018-19 as indicated by nearly zero per cent consumer food price inflation in 2018-19 with price contraction straight for five months in the year.

Growth in the industry accelerated during 2018-19 on the strength of improving

The 'Financial, real estate and professional services' sector grew at 7.4 per cent in 2018-19, higher as compared to 6.2 per cent in 2017-18. This sector amounts for more than 20 per cent of overall GVA of the economy.
