REPEAL OF ARTICLE 370 TO HELP ECONOMIC DEVELOPMENT OF J-K, LADAKH PM'S ADDRESS TO THE NATION

The Prime Minister Shri Narendra Modi addressed the nation on 8 August 2019. The following is the English rendering of his address;

My fellow countrymen,

As a country and as a family, you and us, together we took a historic decision. A system which denied due rights to our brothers and sisters of Jammu, Kashmir and Ladakh; a system which was huge hurdle in their development has now been eradicated. A dream which Sardar Vallabhbhai Patel had, a dream which Babasaheb Ambedkar had, the dream shared by Shyama Prasad Mukherjee, Atalji and crores of citizens, has now been fulfilled. A new age has begun in Jammu-Kashmir and Ladakh.

Now the rights and accountabilities of all the citizens of the country are similar. I congratulate the people Jammu-Kashmir, Ladakh and each and every citizen of the country.

Friends,

Sometimes some things of the social life get so entangled with time that they are considered to be permanent. A sentiment of complacency develops and it is thought that nothing is ever going to change. A similar sentiment prevailed for Article 370.

Because of this there was no debate or talk about the damage done to our

brothers and sisters, our children in Jammu-Kashmir and Ladakh. Astonishingly, nobody was able to list the benefits that Article 370 delivered to the people of Jammu-Kashmir.

Brothers and sisters,

Article 370 and 35A has given nothing but secessionism, terrorism, nepotism and widespread corruption on a large scale to

Jammu-Kashmir. Both these articles were used as a weapon by Pakistan to flare up the emotions of some people. Due to this more than 42,000 people lost their lives in the last three decades. The development in Jammu-Kashmir and Ladakh could not be done on levels which the region deserved. After the removal of this flaw in the system, the people of Jammu-Kashmir will not only have a better present but a bright future ahead.

Friends,

Whichever government is in power, it works for the betterment of the country by enacting laws in the Parliament. No matter which party or coalition is in power, this work never stops.

There is a lot of debate both inside and outside the Parliament when laws are enacted and made, a lot of debate and brainstorming occurs and serious arguments are put up over its importance and effect. The laws that are enacted after undergoing this process are beneficial for

NEW JOBS IN THE AUTOMOTIVE SECTOR

Rruchi Shrimalli

Most students who have passed Class 12th this year and took admission in various college courses will be seeking jobs in 2022 - since most graduation courses in India are three-year long. Those who have joined the engineering courses will be ready to join the workforce after four years (in 2023). New medical students know that they can work as doctors anywhere - in clinics or in hospitals - once they graduate but for the rest, it is important to know which skills will be in demand in the next three to four years.

FICCI (Federation of Indian Chambers of Commerce & Industry) and NASSCOM (National Association of Software and Services Companies) initiated with a study 'Future of Jobs' with EY (Ernst & Young) which examined global megatrends and their impact on the Indian economy. The report studied five of the key sectors in

India in detail and came up with the skills they will require in 2022. These sectors were:

- Automotive,
- BFSI (Banking, Financial Services, and Insurance),
- IT-BPM (Information Technology and Business Process Management),
- Retail, and
- Textiles.

It is believed that in the near future, there will be a decline in

the repetitive and predictable, rule-based jobs while the demand will increase for creative, design-oriented skills that require high order thinking skills (HOTS).

Changes in Skills

According to the report, three major trends that are going to affect job opportunities in these sectors in India will be - globalization, changes in demographics, and adoption of new technologies by various

industries. It is predicted will create most job opportunities in the IT and BFSI sectors, to some extent in auto and retail sectors, and least in core manufacturing sectors such as apparel and leather industries.

The skill sets needed by the future employees of these countries are also expected to change by a large percentage:

In this article, we will discuss which type of new jobs and new skills you will need to find jobs in the automotive sector in the near future.

Current Status of Automotive Sector in India

India is the world's fourth-largest car manufacturer and seventh largest manufacturer of commercial vehicles. By 2026, it is expected to reach a turnover of Rs 16-18 lakh crores. About 3.1 crore vehicles were manufactured in India in 2019.

Traditionally, two-wheelers dominate the Indian automobile

people of the nation. However, it's unfathomable that so many laws are enacted in the Parliament and not enacted in a particular region of the country. Even previous governments who were hailed after enacting just one law couldn't claim that the same law will be implemented in the Jammu & Kashmir region. More than 1.5 crore people of Jammu & Kashmir were deprived of the benefits of laws that were enacted for the benefit of the people of India. Imagine children in rest of the country have a right to education while children in Jammu & Kashmir were deprived of this right. The daughters of Jammu & Kashmir were deprived of the right that our daughters had in rest of the states. In all the other states, Safai Karamchari Act was enacted for hygiene workers but the workers of Jammu & Kashmir were deprived of this. In other states, strict laws were enacted to stop atrocities on Dalits but no such laws could be implemented in Jammu & Kashmir. To protect the rights of blue-collar workforce, Minimum Wages Act was enacted and implemented in all the other states while such a law is only found on papers in the state of Jammu & Kashmir. In all other states, (our) brothers and sisters from Scheduled Tribes got reservation while contesting elections while such thing is unheard of in the state of Jammu & Kashmir.

Friends, I am fully confident that, following abrogation of Article 370 and 35-A, Jammu and Kashmir would soon come out of its negative effects.

Friends and sisters,

In the new system, the priority of the central government would be to keep state government employees and Jammu and Kashmir police personnel at par with the state government employees and police personnel of other states in terms of facilities.

In Union Territories, the government provides many such financial facilities like LTC, House Rent Allowance, Education Allowance for children, Health Schemes etc., most of which are not provided to the employees of Jammu and Kashmir government. Such facilities would soon be provided to the employees of Jammu and Kashmir government and state police personnel following a review.

Friends, very soon the process to fill in the vacancies of central and state government will be initiated in Jammu and Kashmir and Ladakh. This would provide adequate employment opportunities to the local youth. Besides, public sector units of the central government and big private sector companies would also be encouraged to provide new employment opportunities. Apart from the above, Army and para military forces would organize rallies to recruit local youths. The government would also expand Prime Ministers Scholarship Scheme so that

more and more students can get its benefit. Jammu and Kashmir also has huge revenue loss. The central government will ensure to minimize its impact.

Brothers and sisters, after abrogation of Article 370, the central government has decided to keep the state of Jammu and Kashmir under its administration after putting in a lot of thought process in it. It is essential for you to understand the reasons behind the decision. Ever since the state has been under governor's rule, the administration of Jammu and Kashmir is directly under the central government. As a result the good effect of Good Governance and Development have been observed on the ground. The schemes which earlier remained only in files, have been implemented on ground. Projects pending from decades have been speeded up.

We have tried to bring transparency and a new work culture in the Jammu and Kashmir administration. As a result, be it IIT, IIM, AIIMS, various irrigation projects or power projects or the Anti-Corruption Bureau, we have been able to fasten up the work on these projects. Besides, be it the projects of connectivity, roads or new rail lines, modernization of the airport, everything is being accelerated.

Friends,

The democracy in our country is so secure, but you will be surprised to know that there have been thousands of brother

and sisters living for decades in Jammu and Kashmir who had the right to cast their vote in Lok Sabha polls but they were not allowed to cast vote in assembly and local body elections.

They are the ones who had come to India following partition in 1947. Should we have allowed the injustice to continue in the same way?

Friends,

I would also like to clarify another important point to my brothers and sisters of Jammu and Kashmir. Your representative (electoral) would be elected by you, he would be one amongst you. The MLAs would be elected just as they were elected earlier. The forthcoming cabinet would just be as it was used to be earlier. The chief ministers would just be as they were before.

Friends, I am fully confident that, under the new system, we would collectively be able to keep the state of Jammu and Kashmir free from terrorism and secessionism. When our Jammu and Kashmir- the paradise on earth, after achieving new heights of development, attract the whole world, and when there will be greater Ease of Living in the lives of citizens, when they would ceaselessly get their rights, when all the tools of governance would speed up the work in favor of the masses, then I don't think there would be any need to continue with the system under the union government. Yes, it would continue in Ladakh though.

Brothers and sisters, we all want assembly elections in Jammu and Kashmir, that a new government is formed, that a new chief minister is elected. I assure the people of Jammu and Kashmir that you would get the opportunity to select your representative in a fully honest and transparent atmosphere. Just as Panchayat polls were held transparently last days, assembly polls would also be held in Jammu and Kashmir.

I would urge the Governor of the state that the setting up of Block Development Council, which has been pending for past two-three decades, be constituted as early as possible.

Friends,

I have personally experienced that those who got elected in Panchayat polls in Jammu and Kashmir and Ladakh four-five months back, have been working nicely. Few months back when I visited Srinagar, I had a long meeting with them. When they came to Delhi I interacted with them for long at my home. It is because of these friends in Panchayats that the work has been done promptly on village level in Jammu and Kashmir. Be it the task of electrification in every home or making the state Open Defecation Free, the representatives in Panchayats

have played a crucial role.

I am fully confident that following abrogation of Article 370, once these Panchayat members get a chance to work in the new system, they would do wonders. I firmly believe that the people of Jammu and Kashmir would conquer secessionism and move forward with new hope. I firmly believe that the people of Jammu and Kashmir would achieve their objectives with renewed fervor in an ecosystem of Good Governance and Transparency.

Friends, Family rule has not given any opportunity of leadership to any young citizen of Jammu and Kashmir in the State. Now, my these young people will take leadership of the development of Jammu and Kashmir and take it to a new height.

I appeal to the youth, sisters and daughters of Jammu and Kashmir and Ladakh to take over command of development of their area on their own hands.

Friends,

There is every possibility of Jammu and Kashmir and Ladakh becoming one of the greatest tourist destinations. The environment required for this, the need of change in administration, all is being taken care, but for this I need the support of all countrymen. There was a time when Kashmir was the favorite place for shooting Bollywood films. During that time perhaps there was no film produced, had it not been shot in Kashmir. Now, situations in Jammu and Kashmir will normalize; not only from India, but people from all over the world will come for shooting there. Every Film will bring with it new opportunity of employment for the people of the Kashmir. I appeal to the Film Industry of Telugu and Tamil Film Industry and people associated with it to definitely think over for investment, shooting of film, theatre and setting up of other facilities in Jammu and Kashmir.

I appeal to those who are associated with technology, administration or private sector to give priority in their policies and their decisions as to how to disseminate technology in Jammu and Kashmir. When digital communication will be strengthened there and BPO Centre, Common Service Centre will increase in numbers there, there will be enhanced opportunity of earning livelihood, and the life of our brothers and sisters of Jammu and Kashmir will become easier.

Friends,

The decision taken by the Govt. will benefit those youth of Jammu and Kashmir and Ladakh who aspire to progress in the field of sports. New sport

www.Jobriya.com

www.Jobriya.com

The Centre this week gave a thrust to its efforts to nurture skill training and successful entrepreneurship among the enterprising young generation of the country. Launching the awareness campaign in New Delhi to ensure massive participation in National Entrepreneurship Awards 2019 to be held on 9th November this year, the Minister for Skill Development & Entrepreneurship Dr. Mahendra Nath Pandey said, Prime Minister Shri Narendra Modi's government in its second tenure is working with renewed enthusiasm to realise the aspirations of the common man. "It has happened after a long time. The government has come back with more majority; a government that is connected to the people. How to bring forward the youth of the country is priority for the government," the minister said.

Those interested in registering for the National Entrepreneurship Awards 2019 can do so by visiting the Skill Development ministry website <https://neas.gov.in>. The entries close on 10th September 2019.

The National Entrepreneurship Awards (NEA) have been instituted by the Ministry of Skill Development and Entrepreneurship (MSDE) as an important step to catalyse a cultural shift in youth for entrepreneurship and to recognise and honor outstanding young

first generation entrepreneurs and their ecosystem builders for their outstanding contribution in entrepreneurship development.

Observing that articles in print media and telecast of film award functions get repeated often, the Minister for Skill Development & Entrepreneurship Dr. Mahendra Nath Pandey appealed to the media to accord similar importance to creating awareness on skill development and entrepreneurship to nurture an enterprising culture among the youth of the nation.

Make in India, Skill India, Startup India,

Stand Up India, Mudra are concerted efforts of the government towards empowering the youth to fulfill the vision of Prime Minister Shri Narendra Modi to meet the aspirations of the people.

Expressing satisfaction over sustained interest of the youth in the National Entrepreneurship Awards since their inception four years ago, the minister congratulated all the people involved, not only from the ministry, but also from private organisations and institutions who have come forward and volunteered their valuable time to this cause.

"Prime Minister Narendra Modi's vision

to skill every Indian and encourage the youth towards entrepreneurship has enabled the government to launch many such initiatives. Entrepreneurs are able to contribute much more to the country as job creators" Dr. Pandey said further adding "It is heartening to know that the government's initiatives to involve every part of the country in our skilling efforts, is bearing fruit. In reply to a question by the media, Skill Development Minister Dr Mahendra Nath Pandey said his ministry is doing its best to give required training and assistance to the youth of Jammu and Kashmir and Ladakh.

Speaking on the occasion, Joint Secretary, Ms. Jyotsna Sitling said, the award function is proposed to be held on 9th November, the foundation day of the Ministry of Skill Development & Entrepreneurship. There are a total of 45 specially designed awards to be bestowed - 39 Enterprise Awards and 6 Awards for Entrepreneurship Ecosystem Builders. To be eligible for these awards, the nominees must be under the age of 40 years; they must be first-generation entrepreneurs; the nominee (entrepreneur) must hold 51% or more equity and ownership of the business; and women entrants must individually or collectively own 75% or more of the enterprise.

academies, new sports stadium, training in scientific environment will help them to show their talent in the world.

Friends, whether is it colour of kesar or flavour of kahwa or sweetness of apple or juiciness of apricot or Kashmiri shawl or the art work or be it organic products of Ladakh or herbal medicines of Jammu and Kashmir, all these need to be publicised in the entire world. I give you one example, there is a plant in Ladakh, named solo. Experts say that this plant is like a sanjivini for people living in high altitude and for security forces deployed in heavy icy mountains.

These plants have great role in maintaining the immune system of body in places with low levels of oxygen. Just think over, should not these extraordinary items be sold in the whole world? Which Indian do not want this. And friends, I named only one plant. There are ample plants, herbal products spread over Jammu and Kashmir and Ladakh. Those will be identified. If they are sold, it will benefit people and the farmers of Jammu and Kashmir and Ladakh. Therefore, I appeal to the people associated in Industry, Export, Food Processing Sector to come forward to ensure that local products of Jammu and

Kashmir and Ladakh reach whole of the world.

Friends, After becoming a Union territory, development of the people of Ladakh becomes natural responsibility of the Govt. of India. Central Government with the cooperation of local representatives, Development Council of Ladakh and Kargil, will ensure benefits of all development schemes reaches to people at a faster pace. Ladakh has the potential to become the biggest center of spiritual tourism, adventure tourism and eco-tourism. Ladakh also has the potential to become a big centre of Solar Power generation. Now, the capability of people of Ladakh will be utilized appropriately and new opportunities of development will come up. Now the innovative spirit of youth of Ladakh will get a boost, they will get good institutes for good education, people will get good hospitals, and infrastructure will be modernized with priority.

Friends,

It is possible, in a democracy that some people will agree to this decision and some will oppose it. I respect their disagreement and their objections. Whatever is being argued in this connection, Central Govt. is responding to that and it is trying to resolve the same. It is our democratic responsibility. But I urge them to keep the national interest as

paramount and help the government in giving a new direction to Jammu - Kashmir-Ladakh, and help the country. Moving ahead from, who voted in Parliament, who didn't, who supported the bill, who didn't, now we all to have come together to work unitedly in the interest of Jammu - Kashmir-Ladakh. I also want to convey to our countrymen that the concerns of Jammu - Kashmir and Laddakh are our collective concerns. These are the concerns of 130 crore citizens. We are not indifferent to their happiness or sorrows and sufferings.

The riddance from Article 370 is a reality. But it is also true that whatever odds are being caused now because of these historic steps are being fought by them only. Our brothers and sisters of that region are patiently replying to those handful of people, who want to vitiate the atmosphere there. We should not forget that it is the patriots of Jammu- Kashmir who are strongly opposing the nefarious designs of Pakistan in perpetuating terrorism and separatism. Our brothers and sisters, who believe in Indian Constitution, deserve a better life. We all are proud of them. Today I assure these friends of Jammu - Kashmir that the situation will gradually return to normal and all their troubles too will reduce.

Friends, the festival of Eid is around the corner. I extend my greetings to all on Eid. The government is taking care that people of Jammu - Kashmir don't face any problem while celebrating Eid. The government is extending all possible help to those friends who live outside Jammu - Kashmir and want to return back to their homes on Eid.

Friends, today on this occasion, I also express my gratitude to our friends in security forces, who are posted for the security of the people of Jammu - Kashmir. The way all administrative officials, state employees and Jammu - Kashmir police personnel are handling the situation there is really commendable. Your diligence has boosted my confidence that change can happen.

Brothers and sisters, Jammu-Kashmir is the crown of our country. We are proud that many brave sons and daughters of Jammu - Kashmir have sacrificed and risked their lives for its security. Maulvi Ghulam Din of Poonch district, who had informed Indian Army about Pakistani intruders during 1965 war. He was conferred Ashok Chakra. Col. Sonam Wangchug of Laddakh district, who forced enemies to bite dust during Kargil war, was honoured with Mahavir Chakra. Kirti Chakra was conferred to

Rukshana Kausar of Rajauri, who had killed a big terrorist. Martyr Aurangzeb of Poonch, who was assassinated by terrorists last year and his two brothers are now serving the country after joining the Army. The list of such brave sons and daughters is very long. Several jawans and officials of Jammu-Kashmir Police have also laid their lives while fighting with terrorists. We have lost thousands of people from other parts of the country as well. They all dreamt of a peaceful, safe and prosperous Jammu - Kashmir. We, together, have to realize their dream.

Friends! this decision will help in economic development of Jammu - Kashmir and Laddakh along with the entire country. When peace and prosperity prevails in this important part of the globe, the efforts for peace in entire world will be naturally strengthened.

I call upon my brothers and sisters of Jammu - Kashmir and Ladakh to come together to show the world how much strength, courage and passion we have.

Let us come together to build a new India, as well as a new Jammu - Kashmir and Laddakh. Thank you very much!
Jai Hind!!!

NEW JOBS ...

Continued from page 1

market - making up 81% of all domestic sales this year. The sale of commercial vehicles also grew at a rate of 17.55% since last year. Such a large industry needs to employ a lot of people - directly and indirectly. These people include regular employees as well as contractual workers. Whether you are targeting white collar jobs, skilled jobs, or unskilled labour vacancies - the automobile industry offers you a lot of employment opportunities.

The top 5 automakers and component manufacturers in India together employ about 1.5 lakh people. Overall, about 1.28 crore people are working in the industry today. A recent study by a human resources firm PeopleStrong projected that hiring in the automotive sector will increase by 10-15% in 2020.

Introduction of new products and technologies, stricter emission rules, and expanding capacity means that employment opportunities will rise both at the level of leading manufacturers as well as component makers.

The study also revealed that the key focus areas of the vacancies will be related to the following skills and technologies:

- ♦ Connected technologies, such as Artificial Intelligence (AI) and Automation,
- ♦ Digital Internet of Things (IoT) skills,
- ♦ 5G Connectivity,
- ♦ Coding, and
- ♦ Advanced Driving Assistance System (ADAS).

Hiring is expected to grow by 17-20% in these areas in the next 12-18 months.

Other areas where the hiring in the automotive sector is projected to be strong are:

- ♦ **Research and Development (R&D):** In the R&D department, automakers will be targeting talent that has skills related to designing electric vehicles, engines, and fuel systems.

The Indian government also harbours an ambition of encouraging the sale of only electric vehicles (EVs) in the near future. 11 cities have already been shortlisted for the introduction of EVs in the public transport system. It also aims to make India a global manufacturing and R&D hub as well as a hub for offshoring. Five testing and research centres have already been established since 2015 under the National Automotive Testing and R&D Infrastructure Project (NATRIP).

- ♦ **Calibration:** The deadline for complying with the EURO VI emission norms has been set around April 2020. It means that the component industry will need to increase its capacity in advance, which means that there will be a lot of hiring at the end of

Original Equipment Manufacturers (OEMs) as well as the vendors.

Jobs that might not exist anymore

Some of the jobs in the automotive sector that might not exist in the near future include:

- ♦ Welding
- ♦ Press Machine Operation
- ♦ Painting
- ♦ Inspection Assistance
- ♦ In Plant Material Handler

These jobs can easily be automated to bring down costs and enhance performance.

New jobs that will be in demand soon

In fact, the new jobs that will emerge in the automotive sector in the near future are:

- ♦ **3D Printing Technician:** This technician will know the methods and techniques to 3D print components, check them to ensure that they meet the required specifications, and know how to make 3D additive manufacturing and injection moulding work.
- ♦ **Automobile Analytics Engineer:** This person will be responsible for applying AI and predictive analytics to manage the inventories; use predictive modelling to identify key features that can improve the efficiency of different processes, components, and vehicles; and use big data to forecast sales more accurately.
- ♦ **Machine learning based Vehicle Cyber Security Expert:** The expert will be able to employ machine learning to imitate human driving patterns, and use deep learning and reinforcement learning techniques to develop Advance Automobile Security Systems. They will develop systems that can avoid threats on the road without human interference.
- ♦ **Sustainability Integration Expert:** These experts will develop customized automobile manufacturing solutions that are sustainable and meet all the rules and regulations regarding health and safety of humans as well as the environment.

Existing Jobs that are changing in nature

Some of the jobs that exist in the automotive sector are changing too. The people who will be hired for these positions will need to have additional skill sets to rise in their career. These jobs include:

Clay Modeller will be replaced by 3D Clay Modeller

Clay modelling was first used to design automobile prototypes back in the 1930s. It used industrial plasticine for the purpose and helped designers to visualize a product.

Today, Virtual Reality and 3D printing are changing the way how design teams check out a design in the virtual space even

before making its physical model. Still, the clay is here to stay. There is nothing like a clay model to show how a car surface will react to light and shadow. However, the car modellers that are now in demand are the ones that can translate a designer's sketch into a real, full-scale, 3D car to give them the tactile feel of the product and sort out its optimal ergonomics.

These 3D models can later be scanned into 3D CAD and used to produce manufacturing designs for the vehicle.

The 3D modelling requires additional knowledge of related software, such as Sculpting programs like ZBrush or Mudbox, and Texturing programs like Poly Painting.

Customer Service Executive will be replaced by Customer Care Expert

The customer service executives in any industry do one thing - they receive your calls, answer your queries, and inform you about the steps you need to take to solve your problem. In the automotive sector, it might mean telling people about the price or features of the model of the car they like or telling them about the company policies regarding warranty or guarantee of different components of the car. They work much like Siri - the AI assistant by Apple which fetches you the required information from the database based on the keywords in your question.

Customer care experts are expected to be more helpful, humane, and customer-friendly. They are more concerned about the end-to-end customer experience. As a customer care expert, you do not go through a strict motion to push a sale or satisfy a customer but actually, listen to your customers' needs, try to build a rapport with them, and help them find the right solution.

More and more car makers are investing a lot of money in improving the overall experience of their customers. It means that they need talent with superlative people skills - who can help the customers discover and research their products, shop and purchase them, use them, and build a psychological and emotional connection with their brand. Customer care experts are expected to be in touch with the customer at every touch point related to their company's products or services.

Design Engineer will be replaced by an Interaction Designer

Design engineers in the automotive industry use rough sketches and computer-aided design (CAD) programs to come up with new vehicles. They create ideas and concepts related to the look and visual appeal of the new vehicle as well as its functional performance.

B. Tech in Automotive Design Engineering is a 4-year course

that covers a range of topics on designing, manufacturing, and maintaining vehicles as well as a number of related topics such as energy, environmental concerns, transportation sector, application of fossil and alternative fuels, and development of futuristic vehicles. IIT Madras, UPES Dehradun, SRM University in Chennai are among the top institutes offering this course.

However, it is Interaction Designing that will soon replace Design Engineering in the automotive industry. Designing a new car today requires the use of new technologies and considerations of stricter regulations and safety norms. It means that people with new skills and new specializations are needed in this area.

Interaction designers in the automotive industry may focus more attention on making the car interiors more comfortable for the passengers - which requires specialized knowledge of human factors such as ergonomics, colours, and materials.

It has been noticed that despite the introduction of latest technologies and amazing safety features, incidents of car accidents are increasing. It is because people find the systems too complicated to use them intuitively. Interaction designers are expected to be the person who understands technology and functions of the car and make them user-friendly. Some of the top technologies that make interaction designers a necessity for the car industry are:

- ♦ Increasing usage of touch screens in cars,
- ♦ introducing physical features to minimize driver distraction,
- ♦ making feedback messages cars provide to their drivers more intelligent and smart, and
- ♦ increasing focus on usability of a car.

Mechanical Engineer will be replaced by Mechatronics Control Engineer

Mechanical Engineers play many roles in the automotive industry - from design engineering to reverse engineering, tool development engineering, application engineering, quality control engineering, production supervisory and logistics supervisory roles. But soon, it will be the Mechatronics Control Engineers that will be more in demand in this sector.

Mechatronics involves the use of both mechanical and electronic devices. Robotics is a subset of this field. Similarly, Control Engineering is about creating control systems that can be electrical, mechanical or chemical in nature.

When we talk about Mechatronics and Control Engineers (MCE), we mean specialists who can use control engineering to control various

mechanical and electronic components as well as chemical engineering processes of a car. The MCEs are required to design modern computer-controlled cars and vehicles with a synergistic combination of mechanical, electronic, control and computer engineering.

NIT Surathkhal, NMIMS Mumbai, MIT Manipal, and KIIT Bhubaneswar are among the top colleges offering undergraduate courses in Mechatronics and Control Engineering.

Operations Excellence Manager will be replaced by a Lean Expert

The Operational Excellence Manager in the automotive sector is expected to work with different teams to implement the best manufacturing practices across them. They define, implement, manage and assess the best practices for the operations of the factories.

However, the automobile industry is looking for more from this role now. They are looking for team leaders who are accountable and responsible for cost reporting and budget for the team, and continuously improve the company's products, operations, systems and processes and make them more efficient.

Also known as Continuous Improvement Managers or Business Improvement Managers, Lean Experts are expected to have an engineering degree, a Master Black Belt in Six Sigma or equivalent qualification, and background in manufacturing, project management as well as people management environments.

Being a qualified trainer and membership of a professional body related to the industry gives you an advantage in this career line.

A State Department spokesperson said in Washington that the US is also closely following India's legislation regarding the new territorial status and governance of Jammu and Kashmir and its broader implications. The Spokesperson also urged for calm and restraint along the LoC. The official was responding to a question on the situation in South Asia after Pakistan downgraded the diplomatic ties with India. Earlier, India had rejected any mediation effort by US President Donald Trump on the Kashmir issue. New Delhi has consistently maintained that there is no room for a third party mediation on Kashmir.
